We make making things better

Made for makers

Our challenge? Making your life easier.

Precision work requires expertise, which is precisely one of our main strengths. A solution for a specific challenge. For over 40 years now.

In our lab, we mix the customer's know-how with our own expertise and basic technologies. We then subject our products to the toughest tests, in the most extreme conditions and to the whims of the field. The result? You'll find out yourself.

Our Recreational Vehicles range was developed from this trusted formula. An assortment of high-quality and exceptionally user-friendly products for bonding, sealing, maintaining, treating and cleaning parts and components of caravans, mobile homes, trailers and other recreational vehicles. Carefully formulated in our lab, by makers, for makers.

MULTIFOAM

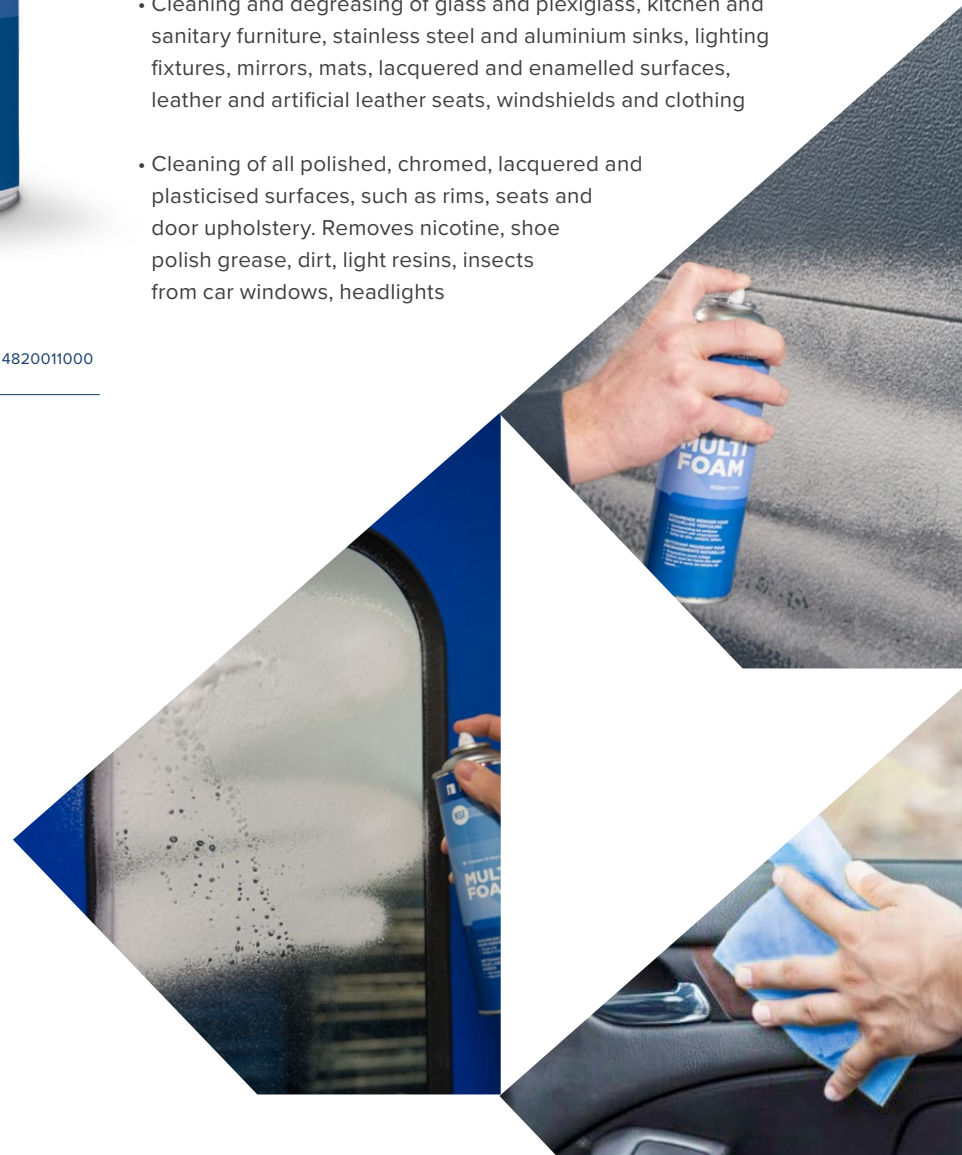

THE ACTIVE AND EFFECTIVE FOAM SPRAY

- ▶ Cleans and degreases easily and quickly
- ▶ Safe to use, even on sensitive surfaces
- ▶ Dries very quickly
- ▶ Does not drip
- ▶ Contains no abrasives

Universal, effective foam spray for safe removal of natural contamination from all water-resistant surfaces, also vertically. Easy, safe and fast to use. Contains no abrasives and has a pleasant odour. Leaves no traces, smears or coloured marks on surfaces.

APPLICATIONS

- Cleaning and degreasing of glass and plexiglass, kitchen and sanitary furniture, stainless steel and aluminium sinks, lighting fixtures, mirrors, mats, lacquered and enamelled surfaces, leather and artificial leather seats, windshields and clothing
- Cleaning of all polished, chromed, lacquered and plasticised surfaces, such as rims, seats and door upholstery. Removes nicotine, shoe polish grease, dirt, light resins, insects from car windows, headlights

NOVAKLEEN HEAVY DUTY

CONCENTRATED CLEANER FOR ALL SURFACES

- ▶ Quick, thorough cleaning with sparkling shine
- ▶ Antistatic wax layer for lasting protection
- ▶ For manual use as well as in installations

Novakleen Heavy Duty is a concentrated highly alkaline cleaner for large areas. Contains tensioactive ingredients which are over 90% biodegradable according to OECD standards.

APPLICATIONS

Cleaning of caravans, mobile homes, trailers, tarpaulins, covers, boats, tents, plastic, PVC furniture, metal structures and panels, trucks and trailers, ...

NOVACARE SHAMP-WAX

PROTECTIVE SHAMPOO

- ▶ In one operation
- ▶ Easy to clean, shine and protect
- ▶ Pearl effect
- ▶ Biodegradable

The almost foam-free formulation has strong cleansing properties for the most frequent natural contaminants. Due to the high wax content, natural Carnauba wax conditioner, it gives a totally different feeling when washing and forms a protective and glossy top layer after drying. Thanks to this protective layer, the treated surface remains dirt-repellent for a long time.

APPLICATIONS

- Washing and showroom preparation of caravans, mobile homes, trailers, cars, trucks, motorbikes, boats, bicycles, ...
- Cleaning and protection of lacquered surfaces, varnish, polyester, rubber, chrome, stainless steel, ...

NOVAKLEEN PH9

LIQUID CLEANER FOR NATURAL POLLUTION

- ▶ For cleaning and degreasing of all water-resistant surfaces
- ▶ Non-corrosive and non-flammable
- ▶ Biodegradable and non-toxic

Novakleen pH9 is a powerful liquid deep cleaner for natural pollution that breaks down dirt, greasy deposits, sticky residues and stubborn grease stains without affecting the surface of the material itself. The dirt is soaked off so that it can be completely removed by wiping and rinsing.

APPLICATIONS

- Cleaning of most surfaces: plastic, textile, carpet, vinyl, canvas, formica, lacquer, metal, wood, chrome, aluminium, upholstery, polyester, plexi, rubber, ...
- Removal of most kinds of dirt: natural greases and oils, nicotine, diesel deposits, dead insects, adhering dust, shoe polish, pencil marks, ...

novatio
tip

Removing black stripes under windows and doors

Black silicone around windows and doors will gradually shed off its colour due to UV radiation and other weather conditions. This results in black stripes that are very hard to remove. Our **CLEAN GUM SOFT** will remove this staining quickly and efficiently.

Art. 482535390

before after

SAFETY CLEAN

SOLVENT FOR CHEMICAL POLLUTION

- ▶ Safe and fast
- ▶ Thorough cleaning without leaving any residue
- ▶ Doesn't form an oxide layer on light metals

A multipurpose degreaser for removing chemical contaminants that leaves no oil film or stains. Safe to use on most materials such as painted surfaces, vinyl, glass, rubber, textiles, most plastics, ... Also ideal for finishing our adhesives and sealants.

Safety Clean Gel is the gel version and is ideal for use on vertical surfaces.

APPLICATIONS

- Cleaning and degreasing of mechanical parts
- Removal of adhesives and glue residues of tape, adhesives, sealants, silicones, oil, grease, wax, tar, paraffin, ...
- Cleaning and degreasing of all surfaces before bonding or sealing
- Degreasing all metals, cleaning melamine, HPL, ...

WHEEL CLEANER

POWERFUL RIM CLEANER

- ▶ Cleans efficiently and is self-neutralising
- ▶ No more scrubbing
- ▶ Fully soluble in water

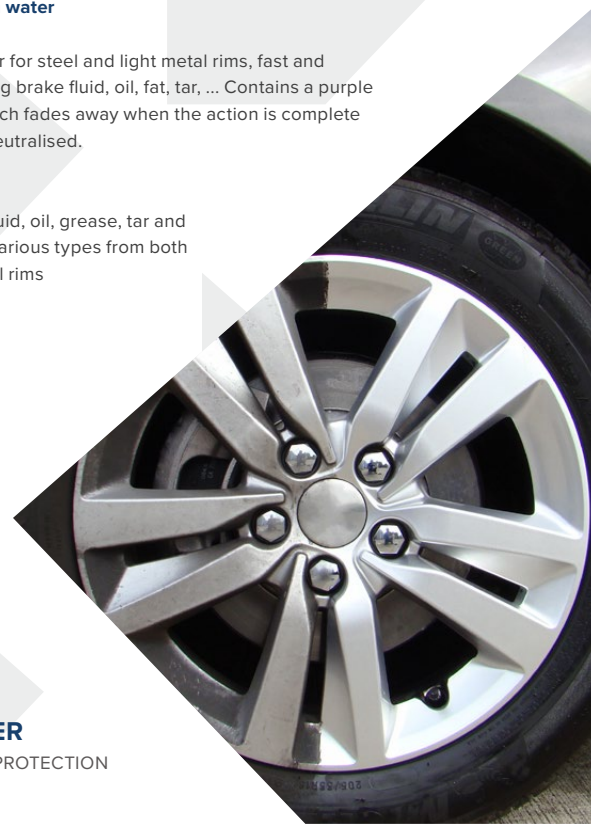

Professional cleaner for steel and light metal rims, fast and effective at removing brake fluid, oil, fat, tar, ... Contains a purple colour indicator which fades away when the action is complete and the acids are neutralised.

APPLICATIONS

Removal of brake fluid, oil, grease, tar and contaminations of various types from both steel and light metal rims

TIRE RENEWER

ATTRACTIVE TIRE PROTECTION

- ▶ Feeds and renews all tyres
- ▶ Produces an even, satin effect
- ▶ Makes tyres dirt and water resistant
- ▶ Pleasant odour

Tire Renewer has been specially developed to feed and protect new and used tyres, is highly water repellent and protects rubber tyres against discolouring, tears and staining. It does not contain any disruptive colour pigments, with the result that it does not leave any stains on nearby materials and surfaces. Tire Renewer has been specially developed for vulcanised natural rubber.

NOVA WIPE

CLEANING WIPES IN RESEALABLE BOX

- ▶ Safe and skin friendly for the hands, contains glycerine
- ▶ No water, soap or solvents necessary: ideal on location
- ▶ Efficiently cleans and degreases also dirty and soiled, smooth surfaces

Nova Wipes remove the most persistent contaminations on smooth surfaces. They are easy to take with you thanks to the handy packaging.

Nova Wipe Blue is the double-sided version with a soft and rough side for more persistent dirt.

APPLICATIONS

- Removing of oil, grease, lubricants, non-hardened 2-c lacquers, PUR-foam, polyester, PU-lacquers, MS-polymers, nicotine, adhesive, epoxy's, graffiti, silicones, polyurethanes, tar, ...
- Cleaning of very dirty hands, equipment, tools, parts, machines, ...

CLEANING TISSUE PAPER IN HANDY DISPENSING BOX

- ▶ Highly absorbent, honeycomb-patterned cleaning tissue paper
- ▶ 2-ply bonded and folded sheets
- ▶ Handy dispensing box of 240 sheets
- ▶ Strong, even when wet

Adhesives & sealants

Quality is often determined by the inconspicuous. Effective bonding, sealing or taping of components such as chassis parts, roof coverings, drains, windows and floor and wall coverings is necessary for the professional who truly cares about quality.

SEAL & BOND EASY SEAL

LASTING FLEXIBLE AND STICKY SEAL

- ▶ Easy to apply
- ▶ Easy to remove

Bonds without pre-treatment to clean and dry surfaces such as: most metals, powder coating, lacquer, paint, glass, PVC, polyester, wood, ...
Also applicable between polyethylene and polypropylene. Remains slightly sticky after evaporation of the solvents. Because of its excellent UV and weather resistance, Easy Seal is also very suitable for outdoor applications on recreational vehicles like mobile homes, trailers and caravans.

APPLICATIONS

- Sealing of overlapping parts, screw joints, sunroofs, domes, electrical components, light boxes, lighting, rear lights, ventilation grids, ...
- Sealing glass in rubber
- Fixes and prevents creaking and squeaking of, for example, the dashboard, piping, ...

SEAL & BOND MS22 X

HIGH-TECH SEALANT

- ▶ **Applicable from -10°C to +40°C**
- ▶ **Strong and elastic**
- ▶ **Can be painted over and is mildew-resistant**
- ▶ **Ecological and safe**

MS22 X was developed for use in all conditions: from -10°C to +40°C and where excellent adhesion and high flexibility are required. It resists weathering, UV rays and chemical corrosion very well. This makes it ideal for use in all environments.

APPLICATIONS

- Expansion joints inside and outside, both horizontal and vertical
- Glass sealing in all climatic conditions
- Sanitary kit with category XS1 mould resistance
- Connection joints between materials with widely differing expansion behaviour
- Flexible bonding (movement capacity 20%)

SEAL & BOND SPRAY

SPRAYABLE HYBRID POLYMER FOR BONDING AND SEALING

- ▶ **Exceptionally strong adhesion to most materials, even damp**
- ▶ **Can be painted over immediately**
- ▶ **UV, weather and chemical resistant**
- ▶ **Reduces vibration and sound transmission**
- ▶ **Forms a flexible, tough and scratch-resistant layer**

Seal & Bond Spray is a unique glue which can be used with a spatula, a brush or a sprayer and based on high-grade hybrid polymers. It remains flexible and dries by air humidity, without releasing isocyanates. Seal & Bond Spray is simple to apply and structure with the Novatio Mastergun and can be repainted very quickly, even "wet on wet".

APPLICATIONS

- Bonding of parquet to novylon and carpet / aluminium to glass, aluminium to wood, polystyrene to wood, lead to other building materials, decorative floor and wall coverings
- As sound insulation of e.g. machine rooms, ...

SEAL & BOND MS SCREEN

FAST WINDSCREEN ADHESIVE

- ▶ **Positive Tatcham crash test after 2 hours**
- ▶ **Very high tensile strength, without primer, on most materials**
- ▶ **Stable with direct high adhesion and torsional rigidity**

Seal & Bond MS Screen is a 1-component adhesive based on MS Polymers. It has a fast drying time and does not require a primer. Seal & Bond MS Screen has a high tensile strength, good torsional stiffness and shows no signs of age. Non hardened glue residues are easy to remove and an opened cartridge can be stored for a long time.

Packages

Cartridge 290ml	Art. 537296000
-----------------	----------------

SEAL & BOND MS62 X

HIGH-TECH CONSTRUCTION SEALANT

- ▶ **Applicable from -10°C to +40°C**
- ▶ **High initial adhesion and keeps its shape**
- ▶ **Mildew-resistant**
- ▶ **Ecological and safe**

MS62 X was developed for use in all conditions: from 10°C to 40°C and where high immediate, long-term adhesion is required. MS62 X is vibration-proof, can be painted on and is highly resistant to weathering, UV rays and chemical corrosion. This makes it ideal for use in all environments.

APPLICATIONS

- Hanging bonds
- Assembly of heavy structural elements
- Bonding at temperatures as low as -10°C

Packages

Black - cartridge 290ml	Art. 531130000
-------------------------	----------------

NOVA POWER GRIP 409 2-K

2K PU FOR REPAIR AND BONDING

- ▶ **High filling capacity and unique adhesion**
- ▶ **Can be sanded, tapped or drilled very quickly**

Nova Power Grip 409 2-K is a superstrong 2-component adhesive with long open working time. It is the ideal adhesive for universal repairs and bondings with a long working time and approaches the strength and flexibility of synthetic materials. It can be sanded quickly, both on thin and thick layers and is suitable as both an adhesive and repair system.

APPLICATIONS

- Bonding of spoilers, panels, bumpers, ...
- Bonding of ferrous and non-ferrous metals, repairing damaged screw threads, of non-weldable engine parts such as ALU, zinc alloy, ...
- Sealing of a.o. antenna holes

Packages
Cartridges 250ml Art. 590419000

MEGAPLAST PU 90S

2K PU FOR SUPER FAST REPAIR AND BONDING

- ▶ **Prepolymerised technology**
- ▶ **Can be sanded fast - even on thin layers / after 10 minutes**
- ▶ **Approaches the strength and flexibility of synthetic materials**
- ▶ **Practical packaging: one cartridge per repair**

Megaplast PU is a professional 2-component, self-mixing PU system for superfast gluing and repairing. It approaches the strength and flexibility of synthetic materials. Megaplast PU is the handiest and fastest repair method and can be used and closed several times perfectly.

APPLICATIONS

Repairing and gluing of hard and flexible plastics (fibre filled or not), such as polyester, insulation materials, HPL, ABS, SMC, PC, ... as well as hard and soft wood, glass, ferrous and non-ferrous metals

Packages
Black - cartridge 2 x 25ml Art.594111000

SEAL & BOND MS50 2-K

2K CONSTRUCTION ADHESIVE AND SEALANT IN HANDY 1K CARTRIDGE

- ▶ **Fast curing to the core, even in extremely thick layers**
- ▶ **High tensile strength, UV and weather resistant**
- ▶ **Perfect adhesion on most materials without the use of primer**
- ▶ **Can be painted quickly with both solvent-based and water-based paints, even wet on wet**

Seal & Bond MS50 2-K is a 2-component system in a 1-component cartridge for bonding and sealing. It has a very fast internal polymerisation without shrinkage and meets the highest and most recent DIN-norms for garage, industry and bodywork repairs: DIN 53505 and DIN 53507. Seal & Bond MS50 2-K is UV- and weather-resistant, does not get mouldy and is odourless. It adheres to most current materials such as varnished and galvanized surfaces, ferrous and non-ferrous metals, steel, aluminium, lacquer, varnish, polyester, wood and most synthetic materials.

APPLICATIONS

- Bonding and sealing of spoilers, body kits, loading bases, ...
- Installation of sunroofs
- Sealing of water leaks in boots
- Bodywork parts with a covering function can be glued. This is completely in conformity with the GOCA standards of the car inspection PL002-06 under notion III

Packages
Light grey - cartridge 250ml Art. 526306000
Black - cartridge 250ml Art. 526106000

MEGAPLAST PPE

FAST 2K GLUE FOR DIFFICULT PLASTICS

- ▶ **Impact resistant**
- ▶ **Very high tensile strength**

A 2-component acrylate hybrid glue for bonding, sealing and filling low energy materials such as polyethylene and polypropylene. Megaplast PPE can be used in the automotive, industrial and electronics sectors. Even in the optical world to glue glass or to mount or fix construction components. It is shock-resistant and has very good adhesion to difficult to glue plastics. Megaplast PPE can bind different plastics together, whether combined with different metals, glass, ...

APPLICATIONS

- Gluing or sealing materials and plastics with an extremely low surface tension such as PP, PE, ...
- Gluing PP and PE with ABS, PVC, HPL, melamine, wood, glass, polyester, hard and flexible plastics, filled with fibre or not

Packages
Cartridge 37ml Art.597101000

AL-FIX

CA GLUE

- ▶ Bonds in seconds
- ▶ High tensile shear strength - shows no shrinkage
- ▶ Very economical - the thinner the adhesive, the stronger the joint
- ▶ Perfect bonding on most materials without using a primer

Al-Fix is a one component adhesive which is solventless and consists mainly of Athyl Cyanacrylate Monomer.

APPLICATIONS

- Bonding between most materials, except materials containing polyethylene, polypropylene and fluorine
- Bondable materials: ABS, aluminium, buthyl, chloroprene, chrome, delrin, glass, copper, natural rubber, NBR, neoprene, nitrile, phenol, polycarbonate, polystyrene, rigid PVC, stainless steel, steel

AL-FIX is the transparent standard CA adhesive, suitable for all uses.

Packages
Bottle 20 ml Art. 501003000

AL-FIX FLEXIBLE is the flexible version, also transparent, specifically suitable for bonding elastic materials, with good moisture resistance.

Packages
Bottle 20ml Art. 501403000

AL-FIX BLACK is the flexible, black version, with the same qualities as Al-Fix Flexible.

Packages
Bottle 20 ml Art. 501303000

AL-FIX GEL is the filling, transparent version. Its filling capacity makes it possible to build up a reinforcing adhesive seam.

Packages
Tube 20 ml Art. 501205000

AL-FIX FILLER is the filler in powder form. Ideal to obtain easy volume when using other Al-Fix adhesives. Superfast activator.

Packages
Bottle 20ml Art. 501100000

AL-FIX REMOVER is the remover. It is suitable for removing glue or softening other glues and PU foams.

Packages
Bottle 20ml Art. 501080000

AL-FIX AKTIVATOR is the activator. It accelerates the curing of Al-Fix adhesives and makes bonding possible on porous surfaces.

AL-FIX AKTIVATOR SF is the ultra-fast activator.

Surface protection & treatment

Bright sunlight, bad roads and intensive use can quickly give car bodywork, textiles and other parts an old, weathered look. Restore weathered surfaces easily and give them a long-term protection.

NANO CARE TEXTILE

THE ULTIMATE TEXTILE IMPREGNATION

- ▶ **Dirt, oil and water repellent**
- ▶ **Longer service life with original appearance**
- ▶ **Colorless**

Prevents dirt from sticking to treated fabrics. Invisible, yet highly effective protection that envelops the fibres in a molecular, intelligent protection. Water-based stains and grease marks, including wine, beer, coffee, tea, milk, chocolate, ice cream, yoghurt, fruit, soft drinks, ketchup, oil, etc., are easily removed from treated fabrics thanks to its impregnating power.

APPLICATIONS

- Protection against moisture and dirt of fibres, sails, summer tents, parasols, carpets, seats (leather and fabric), curtains, mattresses, convertible tops, ...
- Protection of clothing, shoes, leather accessories, backpacks, ...

Packages

Aerosol 400ml Art. 486194000

SURFACE RENEWER

CLEANING, RENEWING AND PROTECTING PAINT AND PVC

- ▶ **Cleans**
- ▶ **Revives the original color**
- ▶ **Gives a deep shine**
- ▶ **Protects against pollution, UV fading and aging**
- ▶ **Easy to apply with immediate results**

Surface Renewer is a ready-to-use cleaner for renewing UV-weathered coating of aluminium joinery or other painted surfaces and powder coatings. With a regular treatment with Surface Renewer, the substrate is nourished and a new look is retained.

Applications

Plastics:

Mobile homes, caravans, trailers, pleasure boats, sports aircrafts, ...

Lacquered (not varnished) or powder coated materials:

Windows and doors, shutters, garage doors, verandas, skylights, terraces, carports, balustrades

Packages

Bottle 400 ml Art. 485302000

NOVALUBE

METAL GREASE FOR ASSEMBLY AND PROTECTION

- ▶ Up to 2300 kg / cm² and + 1200°C
- ▶ Simplifies assembly and disassembly and seals
- ▶ Prevents galvanizing effect and corrosion
- ▶ Reduces friction and wear, with ball bearing effect
- ▶ Stable viscosity and chemical resistant
- ▶ Resistant to temperatures from -180°C to + 1200°C
- ▶ Resistant to water, salt water, acids, corrosive solutions, vapours, gases, oils, most chemical products and solvents
- ▶ Non-toxic and contains no lead or nickel

Novalube lubricates and protects against corrosion and oxidation. It penetrates into the smallest pores and cracks of the metal and forms a fine and permanent protective film.

APPLICATIONS

- Lubricating brake pads, guide rollers, cylinder heads, keyways, gear drives, chains, hinges, sliders, ...
- Protects and lubricates faucets, valves, clamps, slide bars, pumps, ...

PUC-001 2K PU COATING

2K PU PROTECTIVE COATING

- ▶ Sprayable coating for metal, wood and plastics
- ▶ Can be applied horizontally and vertically
- ▶ Shock, bump and impact-resistant
- ▶ Seamless, sound-proofing and anti-slip

PUC-001 2K PU Coating protects surfaces from scratches, bumps and is chemical, UV and weather-resistant. The cured coating is impact-resistant, offers excellent mechanical protection and is water and wind-proof.

The combination of PUP-001 PUC Primer + PUC-001 2K PU Coating provides excellent protection against corrosion.

APPLICATIONS

- Protection of pick-up and trailer loading areas
- Protection barriers in warehouses and workshops
- Seamless protective coating of floors and walls

Packages

RRE-570 RUST REMOVER

NEUTRAL RUST REMOVER

- ▶ Safe for iron and steel
- ▶ Concentrate for 1/10 immersion bath
- ▶ Eco-friendly
- ▶ Also vertically applicable (Gel)

RRE-570 Rust Remover is the safest and easiest way to remove rust from all ferrous metal objects; it does not contain any acids or other hazardous chemicals and is therefore safe and eco-friendly. Active effect deep into all cavities and hard-to-reach places. Even when in contact with the metal for a prolonged period, a healthy material won't be affected or etched. Rust Remover has a preventive effect that inhibits immediate corrosion, allowing the metal to remain unprotected for a while after treatment.

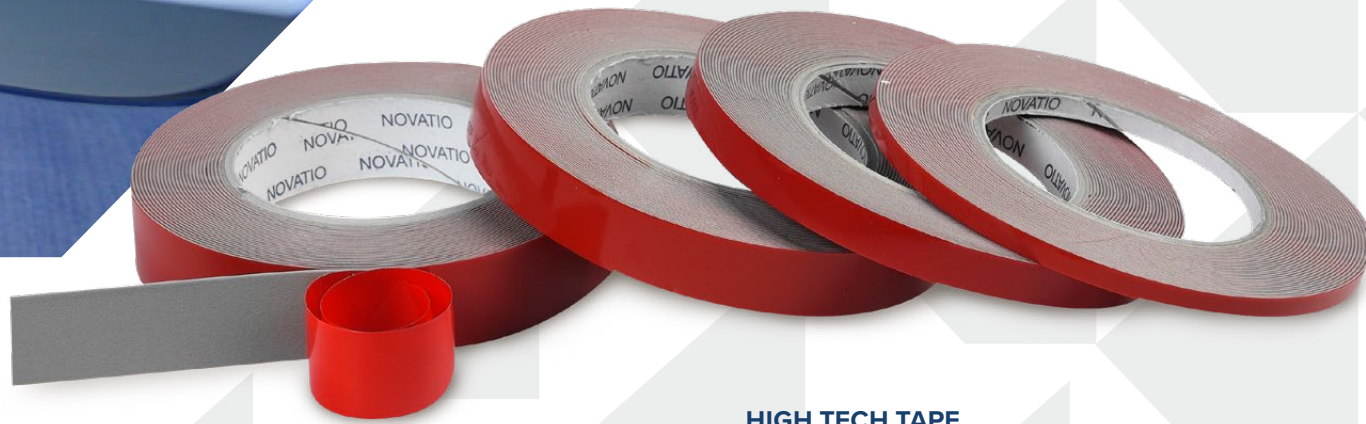

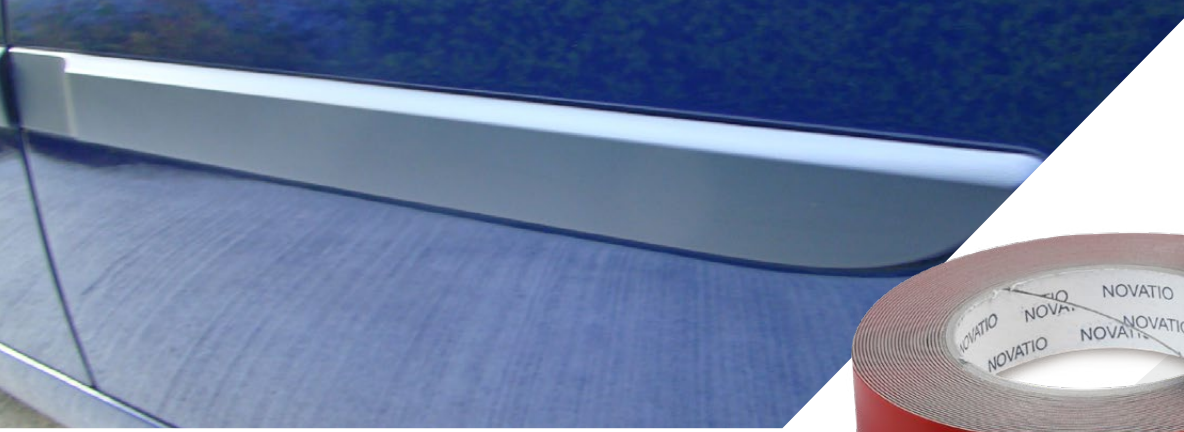

APPLICATIONS

- Derusting steel and (cast-)iron parts, chains and gears
- Vehicle and machine restoration
- Before galvanisation, painting or other surface treatment

NOVATEX TAPE HD
TOP OF THE RANGE TEXTILE TAPE

- ▶ **Weather and water resistant**
- ▶ **Direct pulling power, also on raw materials**
- ▶ **Temperature and tear resistant**
- ▶ **Applicable down to -25°C**

Novatex Tape HD is a superior textile tape in the Novatex line that easily withstands ageing. This HD version has an extremely soft glue coat that allows adhesion to difficult surfaces.

APPLICATIONS
Bonding of rough surfaces, but also on carpets and even on difficult plastics such as polyethylene.

Packages
Roll 50mm / 50m Art. 561128000

SILICON REPAIR TAPE
POWERFUL SELF-VULCANISING TAPE

- ▶ **Pressure and heat resistant**
- ▶ **Insulating capacity up to 8,000 volts**
- ▶ **Timeless liquid and airtight**
- ▶ **Instant vulcanization, even under water**

This silicone tape can be used as insulation, sealing or repair tape under varying conditions. It can be applied in poor conditions, where preparation is difficult, because it bonds by itself. The surface therefore does not necessarily have to be cleaned and dried. Remains flexible and resists petroleum (gasoline), oil, acids, solvents, salt water, road salt and UV light.

APPLICATIONS
Repairing leaking hoses, sealing pipes and fittings, insulating electrical wires, corrosion protection, sealing connectors and fittings, protecting rigging and rope ends, ...

Packages
Transparent - roll 25mm / 3m Art. 565515000
Black - roll 25mm / 3m Art. 565525000

HIGH TECH TAPE
DOUBLE-SIDED ACRYLIC TAPE

- ▶ **For permanent fixing on most materials**
- ▶ **Very high initial strength, but repositionable**
- ▶ **UV-, moisture- and heat-resistant and liquid proof**
- ▶ **High chemical resistance**
- ▶ **Temperature resistant from -30°C to + 150°C**

The tape has a closed cell structure, is therefore 100% liquid-tight and guarantees structural bonding. The protective film is easy to remove.

APPLICATIONS
• Sanitary and kitchen arrangement: bonding of different accessories and fittings on formica, metal, inox, lacquer, glass,...
• Name- and information plates for permanent attachments
• Electronics: rails in switch boxes, assembling of all electronics components, even at high temperature fluctuations
• Bonding of decorative frames, emblems, electrical components, decorative covers on side mirrors

VULCANOVA TAPE
SELF-VULCANISING TAPE

- ▶ **Seals, insulates and protects against moisture and corrosion**
- ▶ **High electrical isolation**

A conformable, self-amalgamating tape based on polyisobutylene, colour black. By stretching and overlapping, the tape forms a homogeneous mass. Vulcanova Tape can also be used for protection against corrosion on metal pipework. Insulation against electrical loss show a high degree of stability under conditions of use. The tape is also highly resistant to prolonged immersion in water and has excellent resistance to ozone.

APPLICATIONS
• Insulation and protection of electrical connections and cables
• Repairing and protecting cable bundles
• Protect metal pipes against corrosion
• Joining (or splitting) and repairing power and distribution cables up to and including 46 KV

Maintenance

Customer comfort and safety are priority number one. In order to guarantee this, flawless maintenance of all mechanical parts is essential, and should therefore only be done with the best products.

novatio
tip

Improved watertightness guarantee

Due to all kinds of weather conditions, rubbers dry out and shrink. Tests have shown that our **SILICON 100** has a regenerative effect on weathered rubbers, restoring them to their original quality and shape, resulting in improved watertightness.

MULTISPRAY

THE ALL-ROUNDER AGAINST RUST, MOISTURE, DIRT AND LEAKAGE CURRENT

- ▶ **Superfast acting by cold shrinkage**
- ▶ **Colourless and practically odour-free**
- ▶ **Dual nozzle**
- ▶ **360° spray direction**

Fast and effective in contact with rust, tar, grease and water, combining penetrating power, lubrication, protection, cleaning, rust control and moisture repellent. Safe to use on metals, plastics, paints, ...

Packages
Aerosol 600ml Art. 236116000

SILICON 100

100% PURE SILICONE OIL

- ▶ **Lubricates, protects, prevents adhesion and makes water repellent**
- ▶ **Clear, extremely thin, odourless, non-staining and effective on all surfaces**
- ▶ **Does not melt, freeze, harden, evaporate or acidify**

Universal lubricant based on water-repellent, non-conductive, chemically inert silicone oil. Contains no solvents or other chemicals. Optimal, temperature-resistant lubrication and protection with a long service life.

APPLICATIONS

- Treatment of metal, rubber, wood, leather, plastics, painted surfaces, textiles, vinyl, ...
- Lubricant for processing plastics, wood, textiles
- Lubrication of seat and window guides and doorhandles of caravans, mobile homes, trailers, ...
- Lubrication of kitchen equipment and fine mechanisms
- Protect and shine plastics, rubber and metal, prevent rubber seals on doors, boots, ... from freezing
- Keeping leather supple and soft

NOVAIRCO STOP S

PREVENTS AND SEALS LEAKS IN AIR CONDITIONING AND COOLING EQUIPMENT

- ▶ For R134a and R1234yf gas
- ▶ In both metal and rubber components
- ▶ Permanent repair
- ▶ Seals multiple leaks in one treatment
- ▶ Reduces noise from the compressor
- ▶ Repairs rubber seals, o-rings, gaskets, ...
- ▶ Does not react to moisture and air

Packages
1-Pack Art. 743008390
3-Pack Art. 743009390

Novairco Stop S prevents and seals leaks in all air conditioning and refrigeration installations, regardless of the gas used, for leaks up to 0.3 mm. The repair is visible with a UV lamp.

NOVASTOP RADIATOR

PREVENT AND REPAIR LEAKS IN CLOSED WATER CIRCULATION SYSTEMS

- ▶ Compatible with all types of radiators and water-based coolants
- ▶ Safe to use on metal and plastic parts
- ▶ Will not clog system and eliminates noise
- ▶ Contains additives that lubricate and others that prevent corrosion and scale formation

Novastop Radiator is safe for fast and permanent repairs of leaks in closed water circulation systems. It seals all metals (copper - alu - iron) and synthetic materials.

APPLICATIONS

- Repair of leaks in radiators and gaskets
- Sealing of hair cracks in engine blocks and cooling coils
- Preventive maintenance to avoid leaks
- Repair of small leaks in closed heating systems

Bottle 250ml Art. 740103000

NFO-230 NOVAFUEL OPTIMIZER HD

CLEANING AND MAINTENANCE CONCENTRATE FOR DIESEL ENGINES

- ▶ From tank to exhaust
- ▶ Increases reliability
- ▶ Lowers fuel consumption
- ▶ Reduces CO and soot emissions

Novafuel Optimizer HD is a concentrated diesel additive for the maintenance and internal cleaning of fuel and exhaust gas systems in Heavy Duty diesel engines. Novafuel Optimizer HD increases power and reduces consumption and soot emissions. It is added to the fuel tank or dosed in the diesel tank at each refuelling. Novafuel Optimizer HD cleans and optimises from the tank to the exhaust, including the injection pump, injectors, pipes, combustion chambers, EGR system, turbo, exhaust catalytic converter and DPF. The effect is maximum on engines that run regularly for short periods or under low load.

better combustion
better performance
longer life span

NOVAFUEL POWERKLEEN

UNIVERSAL POWERFUL FUEL SYSTEM CLEANER

- ▶ Safe cleaning of the entire fuel circuit: tank, pump, injectors and common-rail systems
- ▶ Removes non-volatile fuel residues, water and sulphur deposit
- ▶ Contains lubricating and anti-wear additives

Novafuel Powerkleen is a strong concentrated universal fuel system cleaner with extra lubricating and anti-wear additives. It is safe for catalytic converters and high pressure pumps and is appropriate for both petrol and diesel engines. Novafuel Powerkleen stops surging, stalling and hesitation and prevents expensive mechanical or electrical repairs.

Novafuel Powerkleen RFU is the 'ready for use' version and does not need to be diluted any further.

APPLICATIONS

- Removes carbon and sulphur deposit (sludge), non-evaporating fuel residues and water quickly and efficiently
- Cleans pumps and injectors
- Stops sputtering and hesitation
- Recommended to use before the tuning of the motor

We are not only thinking about you, but also about your customers. For this reason, we are launching the Novatio Kits.

Novatio Kit

The Novatio Kit is a maintenance package with a number of pre-selected products. They are perfect to hand out as a gift to your customer. By doing so you go the extra mile in your service and you send your client out on the road carefree and with a smile on their face.

Furthermore, the Novatio Kit is an ideal way of getting customers to visit you more often and to generate more sales. The kits are exclusively available through professionals, which means customers can only come to you for a new kit. Our experts are happy to figure out the perfect sales strategy together with you.

For our Recreational Vehicles range, we have already put together a number of kits.

Care Box

Cleaning and maintenance of RVs & trailers

- ▶ **MULTIFOAM**
Foaming cleaner for natural contamination
- ▶ **NOVACARE SHAMP-WAX**
Protective shampoo
- ▶ **SURFACE RENEWER**
Cleaning, renewing and protecting lacquer and PVC
- ▶ **NOVAWIPE**
Microfibre cloth
- ▶ **RASTA**
Wash mitt with 1 rasta side and 1 microfibre side
- ▶ **CLEAN GUM SOFT**
Soft gum cleaner

Art. 990101101

Care Box Plus

Cleaning and maintenance of RVs & trailers

Content identical to Care Box, additional products:

- ▶ **NANOCARE TEXTILE**
Impregnation of awning/tent fabric/seats
- ▶ **SAFETY CLEAN**
Tar remover / sticker remover / resin+terpentine removal

Art. 990102101

On-the-road box

Repair box for small repairs on the go

- ▶ **HIGH TECH TAPE**
Double-sided acrylic tape, 12 mm x 5 m
- ▶ **NOVATEX TAPE HD**
Textile tape, 50 mm x 10 m
- ▶ **VULCANOVA TAPE**
Self-vulcanising tape, 19 mm / 5m
- ▶ **AL-FIX GEL**
Clear and filling ca glue
- ▶ **CABLE BINDER**
4,8 mm x 200 mm, 100 pc
- ▶ **MULTISPRAY**
Universal lubricant, 100 ml

Art. 990100101

Fastening kit

Set of straps to secure everything in, on or to an RV

- ▶ **2 X STRAP**
25 mm x 3,5 m; 400 kg
- ▶ **2 X REFLECTIVE STRAP**
25 mm x 1,5 m; 400 kg
- ▶ **2 X STORM STRAP**
25 mm x 2,7 m; 200 kg
- ▶ **1 X RATCHET STRAP WITH 2 HOOKS**
25 mm x 5m; 800 kg

Art. 320190390

Personalise your box

Prefer another configuration? No problem!

In addition to our pre-selected kits, you also have the opportunity to put together your own kit according to the needs of your customer and to design it in accordance to your corporate identity. We offer you three possibilities.

Shared Novatio lay-out + your logo

Your own lay-out

Got a nice idea to make your kit even more attractive? Tell us and we will take care of the rest!

About Novatio

Novatio provides solutions for everyone who makes, protects, maintains and recovers things. Across industries and sectors, we look at the work that needs to be done. Subsequently, we develop just the right application. This way, we make making things better.

But we do much more

We believe that all creators should be proud of their work. Innovation for creative producers therefore extends further than just glue. Novatio goes further with more than 1,000 products in the areas of bonding, sealing and surface treatment.

Our people

An experienced team of co-creators. Each of our employees, whether they work in sales or production, is trained to understand your problem from the very first contact.

Another challenge?

Do you have a specific challenge that cannot be solved with an existing product from our range? Share it with one of our experts and we will search for the best solution together with you in our lab.

Our story

Founded in 1978 and later strengthened by Novatech, Novatio is now part of Novatech International. A Belgian family business, the products of which are available far beyond the national borders - in 27 countries.

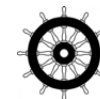

Novatech International developed an expertise in polymer technology that continues to make us the market leader in MS Hybrid Polymers today.

We have been awarded various quality labels and certificates for our products.
