Motorbikes, cars, trucks and heavy equipment.

# YOUR PARTNER IN THE TYRE AND WHEEL RIM SECTOR!

 novatio

Novatio is an international player which operates in 28 countries across the world. Since 1978, Novatio has been offering qualitative solutions for maintenance and repairs in the transport and construction industry... and to help you provide your customers with an impeccable after-sales service!

As a Belgian family-owned company, Novatio sets great store by customer satisfaction. Our R&D department in Olen researches technical developments and pro-actively investigates the needs of our customers.

Novatio has taken a conscious decision to assign a designated team of technical consultants to the car industry and related sectors.

Our years of expertise and countless achievements are testimony to that.

#### **Why opt for Novatio?**

- Quality, focus on service and innovation are of paramount importance to us.
- Integrity: transparent communication, we do what we say and say what we do.
- Dedication: result-oriented, without making any compromises.
- Commitment: Novatio works hand in hand with the WTCB (Belgian Building Research Institute) and other accredited bodies to ensure that product standards are attained.

# Novatio and the automotive industry

## Three key areas

Novatio helps to strengthen your company's position in the following three key areas:

### 1.

#### Working cost-effectively and ecologically

Our solutions help you to work even more efficiently and easier and to deliver an even more qualitative job.

With a view to reducing your 'total cost of ownership', our technical consultants are at your disposal to provide you with any product assembly and installation advice.

Rationalisation and increase in efficiency ensure that man-hours can be kept to a minimum.

### 2.

#### New technical challenges

The rapid technological evolutions in the transport sector make for complex challenges. Together with our customers, we carefully monitor any new developments that come on stream.

Our R&D Department investigates and conducts practical tests in our own laboratory which has been specially equipped for this purpose.

### 3.

#### After-sales service

Your work does not end on acceptance!

An impeccable after-sales service ensures a long service life, generates customer loyalty and leads to new projects coming your way.

# Always the perfect solution, whatever the application!

The Novatio range numbers more than 300 products for professional tradespeople.

Specifically for the tyre industry, we carefully selected and produced new products to simplify your job.

## ■ (DE)MOUNTING WHEELS AND TYRES

Spinning wheel studs and rusty wheel rims or studs are the bane of any tyre fitter's life.

But help is at hand.

- Astro Grip
- Nova Lube
- Tire Grease
- Tire Inflate Ring
- Shock Spray

## ■ TYRE AND WHEEL RIM REPAIRS

Looking for and fixing punctures or wheel rims can be a time-consuming occupation.

Our products will speed up that process and make it easier for you.

- Novaleak Foam
- Safety Seal
- Safety Seal Plus
- Tire Sealant
- Sticky Seal
- Nova Wet Stick
- Novalu 100
- Novaluclear Coat
- Spotrepair

## ■ CLEANING, DEGREASING AND PROTECTION

Novatio is a specialist when it comes to cleaning and protection.

We have exactly what you need to cut through the most appalling dirt and make sure that your customers get what they are looking for: a perfect result and a finish that is second to none.

- Safety Clean
- Wheel Cleaner
- Tire Renewer

# YOUR PARTNER IN (DE)MOUNTING

## Spinning wheel studs and anti-theft bolts

**Astro Grip** gives you 800% more grip on wheel studs and anti-theft bolts, saving you valuable time and preventing your tools slipping and making them less prone to wear and tear.

## Rusty wheel rims on wheel flanges

**Nova Lube 400ml** is an assembly grease, containing specially selected metallic powders. It prevents both galvanic action and corrosion and is noted for its high temperature resistance. Makes age-old rims easy to demount!

**Novatio** has the total solution to the mounting and demounting of wheel rims and tyres!

## Astro Grip

For use with: wrenches/ ring spanners, socket wrenches, combination pliers and vice-grips, Bahco pliers, Allen and Torx keys, all types of screwdriver bits, cordless drills...

Product no : 314510000

## Nova Lube 400ml

Prevents jamming. Its viscosity never changes, even in extreme conditions.

Saves you time and money.

Product no : 221101000

**Because of their exposure to water, mud, salts and rust, tie rods are notoriously difficult to take off.**

**Shock Spray** is cold-shrink action and penetrating oil into one, making light work of a particularly taxing job. Enables you to work quickly and efficiently. Beats heating and banging!

### Shock Spray

Loosens rusty connections in a matter of seconds thanks to the cold-shrink effect.

Swiftly penetrates the tiniest of pores.

Product no : 261001000

**Simplifies both mounting and demounting of low-profile tyres and rigid tyre casings.**

**Tire Grease** is a convenient aerosol that replaces all your tyre mounting lubricants. Dispenses with brushing, does not stain and prevents bacterial growth. This deep-penetrating product has been designed to help you demount stubborn tyres (low-profile and run-flat tyres). Hygienic: no more soap turning black (rotting). Prevents compressed air escaping between the tyre and the wheel rim while the tyre is being inflated.

### Tire Grease

High-tech sprayable grease to demount and mount tyres.

Pleasant fragrance and does not dry out.

Product no : 233981000

**Compressed air is known to escape between the tyre and the wheel rim when the tyre is being inflated**

The **Tire Inflate Ring** is an elastic O ring that prevents air escaping while the tyre is being inflated. The reusable ring is faster, safer and easier to use and puts paid to the need for a bomb/bazooka.

### Tire Inflate Ring

Available in 3 sizes :  
M = 10 to 13 inches.  
L = 14 to 18 inches.  
XL = 22.5 to 26 inches.

### **Rusty wheel studs**

---

**Nova Lube** is an assembly grease that contains specially selected metallic powders, making the wheel studs easy to remove the next time you'll need to change the tyre.

### **Installing and dismantling ball joints can be a tricky operation**

---

Applying lubricant to the tie rod thread beforehand will simplify assembly and tracking no end.

### **Nova Lube 120gr**

Unique lubricating properties - reduces friction and wear and tear - ball-bearing effect. Resistant to water, chemical vapours, salt, solvents, atmospheric conditions...

Product no : 221002000

# YOUR PARTNER IN REPAIRS

**Trying to find a leak in the tread, between the rim and bead or valve is a time-consuming process if you're dealing with a minuscule one.**

**Novaleak Foam** is a safe, water-based, non-flammable leak detector. The air bubbles remain visible for quite some time and are colourless and odourless.

**The quick and easy fix for punctures and perforations in tread and shoulder from the OUTSIDE**

**Safety Seal** is a self-vulcanising tubeless repair cord. There is not even any need to remove the wheel. Ensures lasting repair of punctures or cuts in tread or shoulder of up to 9mm. TUV approved.

**Novatio** has the total solution for all your tyre and wheel rim repair needs!

## Novaleak Foam

Detects air leaks in a matter of seconds. Non-corrosive and safe to use on every surface.

Colourless, odourless and non-toxic. Extremely long shelf life.

Product no : 750131000

## Safety Seal

Safety Seal is the only TUV approved repair system for tubeless tyres, including run-flat and Pax tyres.

It is also tailor-made for steel-belted tyres.

Product no : 700010000

### **The quick and easy fix for punctures and perforations in tread and shoulder from the INSIDE**

**Safety Seal Plus** is a liquid butyl rubber. No roughening or adhesives required. TUV approved. For ultra-quick repairs when used in combination with the Safety Seal repair cord.

### **Safety Seal Plus**

Self-vulcanising liquid butyl rubber for tubeless-tyre repairs. Easy to apply. Quickly and easily adapts to any shape.

Product no : 704010000

### **Leaks between rim and tyre**

**Tire Sealant** is a liquid rubber that fixes leaks without having to change the wheel rim and allows you to retain the existing tyre.

### **Tire Sealant**

Tire Sealant is the ideal solution for persistent leaks between tubeless tyres and rims; suitable for cars, buses, trucks, motorcycles...

Product no : 711000000

### **Airtight mounting of multi-piece wheel rims**

**Sticky Seal** prevents air losses when fitting multi-piece rims and makes them easier to remove afterwards.

### **Sticky Seal**

Sticky Seal is an ever flexible and sticky sealant designed for any automotive applications that need to be made waterproof and airtight.

Product no : 604006000

### Parking damage

---

The **Nova wet stick** is a 2-component epoxy filler/repair paste. Always the correct mixing ratio. Cut and knead. Fully cured after 1 hour. Excellent adhesion to aluminium. Easy to sand.

### Nova Wet Stick

Fills any surface damage.

Always the correct mixing ratio: cut, knead and ready to use.

Product no : 638050000

### Lacquering your repair work

---

**Novalu 100** is a primer/lacquer brimful of aluminium powder, has great adhesive powers and is quick-drying.

### Novalu 100

Stops rust in its tracks; protects against corrosion and is scratch-proof.

Product no : 112001000

### Sealing lacquers

---

**Novaclear Coat** is an abrasion-resistant chemical and transparent protective coating. 1k system and economical to use.

### Novaclear Coat

Fast-drying finishing varnish for smart repairs. The varnish is dry to the touch in 20 minutes. When using under an infra-red light, the varnish cures in 20 minutes and will be mechanically resistant in 24 hours.

Product no : 120910000

### **Blending the original lacquer into a new transparent varnish**

**Spotrepair** ensures that the old and new coat blend into one to give you a uniform finish. As you will see no difference after lacquering, your repair work will be invisible. No spray mist.

### **Spotrepair**

Ideal if you need to overlap wet areas after an application of Novaclear Coat.

Product no : 120920000

## **YOUR PARTNER IN CLEANING, DEGREASING AND PROTECTION**

### **Removal of adhesive residue created by stick-on wheel weights and weights on the rim.**

**Safety Clean** is an adhesive solvent/degreaser. It is safe and easy to use and does not affect the rim lacquer.

### **Safety clean**

Ideal for inorganic dirt such as grease, adhesives, silicones, oils...

Product no : 683001000

**Novatio** has the total solution for all your tyre and wheel rim maintenance needs!

### **Tyres age under the influence of UV rays.**

**Tire Renewer** does what it says on the tin, it is UV and water resistant, has a long shelf life, looks naturally and is economical to use.

### **Tire Renewer**

Nourishes and renovates all tyres. Extends their lifespan. Gives an even, satin effect. Dirt and water-repellent.

Product no : 485201000

### **Plenty of cleaners are acid-based and will ultimately damage wheel rims**

**Wheel Cleaner** removes brake particulates, oil, grease, tar and other kinds of dirt. An extremely powerful and safe cleaner for rim lacquers and substrates. Little handling involved, the product changes colour when it's time to rinse it off.

### **Wheel Cleaner**

High-active, powerful rim cleaner.

Cleans efficiently and is self-neutralising.

No more scrubbing!

Product no : 494001000

# Novatio as partner of the automotive industry.

## Technical advice & lab testing

The Novatio technical lab is at our customers' disposal for specific tests.  
Adhesion issues when gluing? Dirt that is next to impossible to remove?

Our technical consultants will be happy to call out to you and to examine the problem on your behalf!

## Certification of maintenance products

Looking for a maintenance product for your projects that ticks all the boxes in terms of safety?

Novatio will be happy to analyse the substances and surfaces and, once your product has passed muster, we will issue you with a certificate so that you can offer your customers maintenance products that are guaranteed safe to use, highly efficient and as environmentally friendly as they come.
