Technical Info

- Appearance at 20°C: liquid.
- Colour: transparant.
- Odour: characteristic.
- Boiling point: 57-140°C.
- Flashpoint: -18°C.
- Water solubility: moderately soluble.
- Self-ignition: 250°C.
- Relative vapour density: >2.
- Shelf life: 36 months, keep dry, cool and frost-proof.
- Safety measures: consult the Safety Data Sheet.

Packing

Solvetron - aerosol 500ml	904701000
Solvetron - can 5l	904702000
Solvetron - can 25l	904725000

Product

Characteristics

Solvetron degreases and cleans metal, glass, ceramics, textiles and many plastic surfaces, is very easy to use, reacts quickly and is economical to use. Solvetron differs from normal thinners because it works by simple spraying and wiping away, and moreover does not have any residues.

Applications

- Solvetron offers a range of options for use in various industrial sectors such as assembly and repair techniques.
- Thorough cleaning of difficult to reach spots is made possible with the handy jet spray head.
- Also ideal for use in the automotive sector: brakes (drum and disk), cleaning engine parts.
- Removing non-hardened glue residues.

Use
