Product

Characteristics

- A colourless, sticky NSF type H1 registered lubricant, formulated with ingredients that are all NSF approved.
- Specially designed to prevent slipping and to increase the transmission of all drivebelts and transport belts.
- Suitable for all kinds of belts, like V-belts, tooth belts, round and flat belts, regardless of size or transmission speed.
- Prevents cracks, squeaking and does not attract dirt, dust or grease and is safe to use on leather, rubber, canvas, silicones and PTFE belts.

Applications

- all food companies
- abbatoirs
- dairy factories
- bakeries
- canneries
- breweries
- bottle manufacture plants
- forklifts, cooler trucks, floor cleaning machines, drive belts, conveyor belts

Use

- Shake well before use.
- Spray directly on the belt from a distance of between 15 and 30 cm.
