## SAFETY DATA SHEET

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2020/878

## CLEAR LUBE S

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

: CLEAR LUBE S Product name

**Registration number REACH** : Not applicable (mixture)

Product type REACH : Mixture

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### 1.2.1 Relevant identified uses

Lubricant

#### 1.2.2 Uses advised against

No uses advised against

#### 1.3. Details of the supplier of the safety data sheet

#### Supplier of the safety data sheet

Novatio\*

Industrielaan 5B

B-2250 Olen

**2** +32 14 25 76 40

**⊞** +32 14 22 02 66

info@novatio.be

\*NOVATIO is a registered trademark of Novatech International N.V.

#### Manufacturer of the product

Novatech International N.V.

Industrielaan 5B

B-2250 Olen

**2** +32 14 85 97 37

**4** +32 14 85 97 38

info@novatech.be

#### 1.4. Emergency telephone number

24h/24h (Telephone advice: English, French, German, Dutch):

+32 14 58 45 45 (BIG)

## **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

Classified as dangerous according to the criteria of Regulation (FC) No. 1272/2008

| Class           | Category   | azard statements   |  |
|-----------------|------------|--|--|
| Aerosol         | category 1 | H222: Extremely flammable aerosol.                       |  |
| Aerosol         | category 1 | H229: Pressurised container: May burst if heated.        |  |
| Skin Irrit.     | category 2 | H315: Causes skin irritation.                            |  |
| Aquatic Chronic | category 3 | H412: Harmful to aquatic life with long lasting effects. |  |

#### 2.2. Label elements

| Sigilal | woru   |
|---------|--------|
| H-stat  | ements |

Danger

Extremely flammable aerosol. H222 H229 Pressurised container: May burst if heated. H315 Causes skin irritation.

Harmful to aquatic life with long lasting effects. H412

P-statements

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P210

Do not spray on an open flame or other ignition source. P211

Do not pierce or burn, even after use. P251

P280 Wear protective gloves, protective clothing and eye protection/face protection.

IF ON SKIN: Wash with plenty of water and soap. P302 + P352

Created by: Brandweerinformatiecentrum voor gevaarlijke stoffen vzw (BIG)

Technische Schoolstraat 43 A, B-2440 Geel

Reason for revision: 2, 3, 8, 12 Revision number: 0500

Publication date: 2007-07-31 Date of revision: 2021-06-19

P410 + P412

Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122°F.

#### 2.3. Other hazards

Gas/vapour spreads at floor level: ignition hazard

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

#### General:

Observe (own) safety. If possible, approach victim and check vital functions. In case of injury and/or intoxication, call the European emergency number 112. Treat symptoms starting with most life-threatening injuries and disorders. Keep victim under observation, possibility of delayed symptoms.

#### After inhalation:

Remove victim into fresh air. In case of respiratory problems, consult a doctor/medical service.

#### After skin contact:

If possible, wipe up/dry remove chemical. Then rinse/shower immediately with (lukewarm) water. If irritation persists, consult a doctor/medical service.

#### After eye contact:

Rinse immediately with (lukewarm) water. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, consult a doctor/medical service.

#### After ingestions

Rinse mouth with water. If you feel unwell, consult a doctor/medical service. Do not wait for symptoms to occur to consult Poison Center.

#### 4.2. Most important symptoms and effects, both acute and delayed

#### 4.2.1 Acute symptoms

After inhalation:

No effects known.

After skin contact:

Tingling/irritation of the skin.

After eye contact:

No effects known.

After ingestion:

No effects known.

Reason for revision: 2, 3, 8, 12 Publication date: 2007-07-31 Date of revision: 2021-06-19

Revision number: 0500 BIG number: 45278 2 / 16

#### 4.2.2 Delayed symptoms

No effects known.

#### 4.3. Indication of any immediate medical attention and special treatment needed

If applicable and available it will be listed below.

### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### 5.1.1 Suitable extinguishing media:

Small fire: Water, Quick-acting ABC powder extinguisher, Quick-acting BC powder extinguisher, Quick-acting CO2 extinguisher.

Major fire: Quantities of water.

#### 5.2. Special hazards arising from the substance or mixture

Upon combustion: CO and CO2 are formed. Pressurised container: May burst if heated.

#### 5.3. Advice for firefighters

#### 5.3.1 Instructions:

Physical explosion risk: extinguish/cool from behind cover. Do not move the load if exposed to heat. If exposed to fire cool the closed containers by spraying with water. After cooling: persistant risk of physical explosion. Take account of environmentally hazardous firefighting water. Use water moderately and if possible collect or contain it.

#### 5.3.2 Special protective equipment for fire-fighters:

Gloves (EN 374). Protective goggles (EN 166). Head/neck protection. Protective clothing (EN 14605 or EN 13034). Heat/fire exposure: self-contained breathing apparatus (EN 136 + EN 137).

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Stop engines and no smoking. No naked flames or sparks. Spark- and explosionproof appliances and lighting equipment.

#### 6.1.1 Protective equipment for non-emergency personnel

See section 8.2

#### 6.1.2 Protective equipment for emergency responders

Gloves (EN 374). Protective goggles (EN 166). Head/neck protection. Protective clothing (EN 14605 or EN 13034).

Suitable protective clothing

See section 8.2

#### 6.2. Environmental precautions

Contain released product. Dam up the liquid spill.

#### 6.3. Methods and material for containment and cleaning up

Take up liquid spill into absorbent material. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with an excess of water. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

#### 6.4. Reference to other sections

See section 13.

#### SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

#### 7.1. Precautions for safe handling

Use spark-/explosionproof appliances and lighting system. Take precautions against electrostatic charges. Keep away from naked flames/heat. Keep away from ignition sources/sparks. Gas/vapour heavier than air at 20°C. Observe normal hygiene standards. Do not discharge the waste into the drain.

#### 7.2. Conditions for safe storage, including any incompatibilities

#### 7.2.1 Safe storage requirements:

Storage temperature: < 50 °C. Meet the legal requirements. Keep container in a well-ventilated place. Fireproof storeroom. Protect against frost. Keep out of direct sunlight.

#### 7.2.2 Keep away from:

Heat sources, ignition sources.

#### 7.2.3 Suitable packaging material:

Aerosol.

#### 7.2.4 Non suitable packaging material:

No data available

#### 7.3. Specific end use(s)

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

Reason for revision: 2, 3, 8, 12 Publication date: 2007-07-31
Date of revision: 2021-06-19

Revision number: 0500 BIG number: 45278 3 / 16

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### 8.1.1 Occupational exposure

#### a) Occupational exposure limit values

If limit values are applicable and available these will be listed below.

| Time-weighted average exposure limit 8 h (Indicative occupational exposure limit value) | 20 ppm   |
|---|----------|
| Time-weighted average exposure limit 8 h (Indicative occupational exposure limit value) | 72 mg/m³ |

#### Belgium

| Butane, tous isomères: n-butane                                   | Short time value                         | 980 ppm                |
|---|--|------------------------|
|   | Short time value                         | 2370 mg/m <sup>3</sup> |
| Hydrocarbures aliphatiques sous forme gazeuse:<br>(Alcanes C1-C3) | Time-weighted average exposure limit 8 h | 1000 ppm               |
| n-Hexane  | Time-weighted average exposure limit 8 h | 20 ppm                 |
|   | Time-weighted average exposure limit 8 h | 72 mg/m³               |

#### The Netherlands

| n-Hexaan | Time-weighted average exposure limit 8 h (Public occupational exposure    | 20 ppm    |
|----------|---|-----------|
|          | limit value)  |           |
|          | Time-weighted average exposure limit 8 h (Public occupational exposure 7: |           |
|          | limit value)  |           |
|          | Short time value (Public occupational exposure limit value)               | 40 ppm    |
|          | Short time value (Public occupational exposure limit value)               | 144 mg/m³ |

#### France

| n-Butane | Time-weighted average exposure limit 8 h (VL: Valeur non réglementaire indicative) | 800 ppm  |
|----------|--|----------|
|          | Time-weighted average exposure limit 8 h (VL: Valeur non réglementaire indicative) |          |
|          | Time-weighted average exposure limit 8 h (VRC: Valeur réglementaire contraignante) | 20 ppm   |
|          | Time-weighted average exposure limit 8 h (VRC: Valeur réglementaire contraignante) | 72 mg/m³ |

#### Germany

| Butan   | Time-weighted average exposure limit 8 h (TRGS 900) | 1000 ppm               |
|---------|---|------------------------|
|         | Time-weighted average exposure limit 8 h (TRGS 900) | 2400 mg/m <sup>3</sup> |
| n-Hexan | Time-weighted average exposure limit 8 h (TRGS 900) | 50 ppm                 |
|         | Time-weighted average exposure limit 8 h (TRGS 900) | 180 mg/m³              |
| Propan  | Time-weighted average exposure limit 8 h (TRGS 900) | 1000 ppm               |
|         | Time-weighted average exposure limit 8 h (TRGS 900) | 1800 mg/m³             |

#### UK

| Butane   | Time-weighted average exposure limit 8 h (Workplace exposure limit (EH40/2005)) | 600 ppm    |
|----------|---|------------|
|          | Time-weighted average exposure limit 8 h (Workplace exposure limit (EH40/2005)) | 1450 mg/m³ |
|          | Short time value (Workplace exposure limit (EH40/2005))                         | 750 ppm    |
|          | Short time value (Workplace exposure limit (EH40/2005))                         | 1810 mg/m³ |
| n-Hexane | Time-weighted average exposure limit 8 h (Workplace exposure limit (EH40/2005)) | 20 ppm     |
|          | Time-weighted average exposure limit 8 h (Workplace exposure limit (EH40/2005)) | 72 mg/m³   |

#### USA (TLV-ACGIH)

| Butane, isomers | Short time value (TLV - Adopted Value)                         | 1000 ppm |
|-----------------|--|----------|
| n-Hexane        | Time-weighted average exposure limit 8 h (TLV - Adopted Value) | 50 ppm   |

b) National biological limit values
If limit values are applicable and available these will be listed below.

#### Germany

| Hexan (n-Hexan) (2,5-Hexandion plus | Urin: expositionsende, bzw. schichtende | 5 mg/l |  |
|-------------------------------------|---|--------|--|
| 4,5-Dihydroxy-2-Hexanon (nach       |   |        |  |
| Hydrolyse))                         |   |        |  |
| .uca (ps. accus)                    |   |        |  |

| USA (BEI-ACGIH)            |                     |          |                    |  |
|----------------------------|---------------------|----------|--------------------|--|
| n-Hexane (2,5-Hexanedione) | Urine: end of shift | 0,5 mg/L | Without hydrolysis |  |

Reason for revision: 2, 3, 8, 12 Publication date: 2007-07-31 Date of revision: 2021-06-19

BIG number: 45278 Revision number: 0500 4/16

8.1.2 Sampling methods

| Product name  | Test  | Number |
|---|-------|--------|
| n-Hexane (Hydrocarbons, BP36 to 126C)                     | NIOSH | 1500   |
| n-Hexane (organic and inorganic gases by Extractive FTIR) | NIOSH | 3800   |
| n-Hexane (Volatile Organic compounds)                     | NIOSH | 2549   |
| n-Hexane  | OSHA  | 2248   |
| n-Hexane  | OSHA  | 7      |

#### 8.1.3 Applicable limit values when using the substance or mixture as intended

If limit values are applicable and available these will be listed below.

#### 8.1.4 Threshold values

#### **DNEL/DMEL - Workers**

hydrocarbons, C7, n-alkanes, isoalkanes, cyclics

| Effect level (DNEL/DMEL)                   | Туре                              | Value                  | Remark |

#### 8.1.5 Control banding

If applicable and available it will be listed below.

#### 8.2. Exposure controls

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

### 8.2.1 Appropriate engineering controls

Use spark-/explosionproof appliances and lighting system. Take precautions against electrostatic charges. Keep away from naked flames/heat. Keep away from ignition sources/sparks. Measure the concentration in the air regularly.

### 8.2.2 Individual protection measures, such as personal protective equipment

Observe normal hygiene standards. Do not eat, drink or smoke during work.

#### a) Respiratory protection:

Full face mask with filter type A at conc. in air > exposure limit.

#### b) Hand protection:

Protective gloves against chemicals (EN 374).

|                | Measured breakthrough time | Thickness | Protection index | Remark |
|----------------|----------------------------|-----------|------------------|--------|
| nitrile rubber | > 480 minutes              | 0.35 mm   | Class 6          |        |

#### c) Eye protection:

Protective goggles (EN 166).

#### d) Skin protection:

Protective clothing (EN 14605 or EN 13034). Head/neck protection.

#### 8.2.3 Environmental exposure controls:

See sections 6.2, 6.3 and 13

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

| Physical form   | Aerosol                             |  |
|-----------------|-------------------------------------|--|
| Odour           | Characteristic odour                |  |
| Odour threshold | No data available in the literature |  |
| Colour          | No data available on colour         |  |

Reason for revision: 2, 3, 8, 12 Publication date: 2007-07-31
Date of revision: 2021-06-19

Revision number: 0500 BIG number: 45278 5 / 16

| Particle size             | Not applicable (aerosol)              |  |
|---------------------------|---------------------------------------|--|
| Explosion limits          | 1.1 - 7.4 vol % ; Propellant          |  |
| Flammability              | Extremely flammable aerosol.          |  |

## **SECTION 10: Stability and reactivity**

#### 10.1. Reactivity

May be ignited by sparks. Gas/vapour spreads at floor level: ignition hazard.

#### 10.2. Chemical stability

Unstable on exposure to heat.

#### 10.3. Possibility of hazardous reactions

No data available.

#### 10.4. Conditions to avoid

#### **Precautionary measures**

Use spark-/explosionproof appliances and lighting system. Take precautions against electrostatic charges. Keep away from naked flames/heat. Keep away from ignition sources/sparks.

#### 10.5. Incompatible materials

No data available.

### 10.6. Hazardous decomposition products

Upon combustion: CO and CO2 are formed.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### 11.1.1 Test results

#### Acute toxicity

#### **CLEAR LUBE S**

No (test)data on the mixture available

Judgement is based on the relevant ingredients

hydrocarbons, C7, n-alkanes, isoalkanes, cyclics

#### Conclusion

Contains component(s) that adsorb(s) into the soil

#### 12.5. Results of PBT and vPvB assessment

Due to insufficient data no statement can be made whether the component(s) fulfil(s) the criteria of PBT and vPvB according to Annex XIII of Regulation (EC) No 1907/2006.

#### 12.6. Endocrine disrupting properties

No evidence of endocrine disrupting properties

#### 12.7. Other adverse effects

#### **CLEAR LUBE S**

#### **Greenhouse** gases

None of the known components is included in the list of fluorinated greenhouse gases (Regulation (EU) No 517/2014)

#### Ozone-depleting potential (ODP)

Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009)

### **SECTION 13: Disposal considerations**

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

#### 13.1. Waste treatment methods

#### 13.1.1 Provisions relating to waste

#### **European Union**

Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014 and Regulation (EU) No 2017/997. Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

16 05 04\* (gases in pressure containers and discarded chemicals: gases in pressure containers (including halons) containing hazardous substances). Depending on branch of industry and production process, also other waste codes may be applicable.

#### 13.1.2 Disposal methods

Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Specific treatment. Do not discharge into drains or the environment. Dispose of at authorized waste collection point.

#### 13.1.3 Packaging/Container

#### European Union

. Waste material code packaging (Directive 2008/98/EC).

15 01 10\* (packaging containing residues of or contaminated by dangerous substances).

VOC content Directive 2010/75/EU

| VOC content | Remark |
|-------------|--------|
| 67.52 %     |        |
| 445.92 g/l  |        |

#### **REACH Annex XVII - Restriction**

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles.

| and use of certain dangerous substances, mixtures and articles.   |  |   |  |
|---|--|---|--|
|   | Designation of the substance, of the group of substances or of the mixture   | Conditions of restriction   |  |
| hydrocarbons, C7, n-alkanes, isoalkanes, cyclics     hydrocarbons, C6, isoalkanes, < 5% n-hexane     n-hexane | Liquid substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008: (a) hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8 types A and B, 2.9, 2.10, 2.12, 2.13 categories 1 and 2, 2.14 categories 1 and 2, 2.15 types A to F; (b) hazard classes 3.1 to 3.6, 3.7 adverse effects on sexual function and fertility or on development, 3.8 effects other than narcotic effects, 3.9 and 3.10; (c) hazard class 4.1; (d) hazard class 5.1. | 1. Shall not be used in:  — ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays,  — tricks and jokes,  — games for one or more participants, or any article intended to be used as such, even with ornamental aspects,  2. Articles not complying with paragraph 1 shall not be placed on the market.  3. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or perfume, or both, if they:  — can be used as fuel in decorative oil lamps for supply to the general public, and,  — present an aspiration hazard and are labelled with H304,  4. Decorative oil lamps for supply to the general public shall not be placed on the market unless they conform to the European Standard on Decorative oil lamps (EN 14059) adopted by the European Committee for Standardisation (CEN).  5. Without prejudice to the implementation of other Community provisions relating to the classification, packaging and labelling of dangerous substances and mixtures, suppliers shall ensure, before the placing on the market, that the following requirements are met:  a) lamp oils, labelled with H304, intended for supply to the general public are visibly, legibly and indelibly marked as follows: "Keep lamps filled with this liquid out of the reach of children"; and, by 1 December 2010, "Just a sip of lamp oil — or even sucking the wick of lamps — may lead to life-threatening lung damage";  b) grill lighter fluids, labelled with H304, intended for supply to the general public are legibly and indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may lead to life threatening lung damage";  c) lamp oils and grill lighters, labelled with H304, intended for supply to the general public are packaged in black opaque containers not exceeding 1 litre by 1 December 2010. |  |
| hydrocarbons, C7, n-alkanes, isoalkanes, cyclics     hydrocarbons, C6, isoalkanes, < 5% n-hexane     n-hexane | Substances classified as flammable gases category 1 or 2, flammable liquids categories 1, 2 or 3, flammable solids category 1 or 2, substances and mixtures which, in contact with water, emit flammable gases, category 1, 2 or 3, pyrophoric liquids category 1 or pyrophoric solids category 1, regardless of whether they appear in Part 3 of Annex VI to that Regulation or not.  | 1. Shall not be used, as substance or as mixtures in aerosol dispensers where these aerosol dispensers are intended for supply to the general public for entertainment and decorative purposes such as the following:  — metallic glitter intended mainly for decoration,  — artificial snow and frost,  — "whoopee" cushions,  — silly string aerosols,  — imitation excrement,  — horns for parties,  — decorative flakes and foams,  — artificial cobwebs,  — stink bombs.  2. Without prejudice to the application of other Community provisions on the classification, packaging and labelling of substances, suppliers shall ensure before the placing on the market that the packaging of aerosol dispensers referred to above is  |  |

#### 15.2. Chemical safety assessment

No chemical safety assessment has been conducted for the mixture.

#### SECTION 16: Other information

#### Full text of any H- and EUH-statements referred to under section 3:

H220 Extremely flammable gas.

H222 Extremely flammable aerosol.

H225 Highly flammable liquid and vapour.

H229 Pressurised container: May burst if heated.

H280 Contains gas under pressure; may explode if heated.

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H336 May cause drowsiness or dizziness. H361f Suspected of damaging fertility.

H373 May cause damage to organs (central nervous system) through prolonged or repeated exposure if inhaled.

H411 Toxic to aquatic life with long lasting effects.

H412 Harmful to aquatic life with long lasting effects.

The information in this safety data sheet is based on data and samples provided to BIG. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. BIG does not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is only to be used within the European Union, Switzerland, Iceland, Norway and Liechtenstein. Any use outside of this area is at your own risk. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your BIG licence agreement or when this is failing the general conditions of BIG. All intellectual property rights to this sheet are the property of BIG and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
