# SAFETY DATA SHEET

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2020/878

# AL-FIX FLEXIBLE

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

: AL-FIX FLEXIBLE Product name **Registration number REACH** : Not applicable (mixture)

**Product type REACH** : Mixture

# 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### 1.2.1 Relevant identified uses

Adhesive

Sealing compound

#### 1.2.2 Uses advised against

No uses advised against known

# 1.3. Details of the supplier of the safety data sheet

# Supplier of the safety data sheet

Novatio\*

Industrielaan 5B

B-2250 Olen

**3** +32 14 25 76 40

### 1.4. Emergency telephone number

24h/24h (Telephone advice: English, French, German, Dutch):

+32 14 58 45 45 (BIG)

# SECTION 2: Hazards identification

# 2.1. Classification of the substance or mixture

Classified as dangerous according to the criteria of Regulation (EC) No 1272/2008

| Class       | Category   | Hazard statements                       |
|-------------|------------|---|
| Skin Irrit. | category 2 | H315: Causes skin irritation.           |
| Eye Irrit.  | category 2 | H319: Causes serious eye irritation.    |
| STOT SE     | category 3 | H335: May cause respiratory irritation. |

#### 2.2. Label elements

Contains: ethyl 2-cyanoacrylate.

Signal word

H-statements

H315 Causes skin irritation.

H319 Causes serious eye irritation. H335 May cause respiratory irritation.

P-statements

Wear protective gloves, protective clothing and eye protection/face protection. P280 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304 + P340

P302 + P352 IF ON SKIN: Wash with plenty of water and soap.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

Reason for revision: 3;9;12 Revision number: 0700

Publication date: 2007-05-09 Date of revision: 2022-07-11

P312 Call a POISON CENTER/doctor if you feel unwell.

P403 + P233 Store in a well-ventilated place. Keep container tightly closed.

Supplemental information

EUH202 Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.

EUH208 Contains: phthalic anhydride. May produce an allergic reaction.

#### 2.3. Other hazards

No other hazards known

# SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable

### 3.2. Mixtures

# **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

# General:

Observe (own) safety. If possible, approach victim and check vital functions. In case of injury and/or intoxication, call the European emergency number 112. Treat symptoms starting with most life-threatening injuries and disorders. Keep victim under observation, possibility of delayed symptoms.

# After inhalation:

Remove victim into fresh air. In case of respiratory problems, consult a doctor/medical service.

# After skin contact:

Do not pull surfaces apart with a direct opposing action. Immerse the bonded surfaces in warm, soapy water. Peel or roll surfaces apart with a blunt edge, e.g. spatula. Consult a doctor/medical service.

#### After eve contact:

Do not try to open the eyes by manipulation. Wash thoroughly with warm water. Apply a moist gauze patch. Consult a doctor/medical service.

#### After ingestion:

Do not try to pull the lips with a direct opposing action. Apply lots of warm water and saliva. Immediately consult a doctor/medical service.

# 4.2. Most important symptoms and effects, both acute and delayed

#### 4.2.1 Acute symptoms

#### After inhalation:

Irritation of the respiratory tract. Irritation of the nasal mucous membranes. Respiratory difficulties.

#### After skin contact:

Tingling/irritation of the skin.

# After eye contact:

Irritation of the eye tissue.

# After ingestion:

No effects known.

# 4.2.2 Delayed symptoms

No effects known.

Reason for revision: 3;9;12 Publication date: 2007-05-09

<sup>(2)</sup> Substance with a Community workplace exposure limit

<sup>(10)</sup> Subject to restrictions of Annex XVII of Regulation (EC) No. 1907/2006

# 4.3. Indication of any immediate medical attention and special treatment needed

If applicable and available it will be listed below.

# SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

#### 5.1.1 Suitable extinguishing media:

Small fire: Quick-acting ABC powder extinguisher, Quick-acting BC powder extinguisher, Quick-acting class B foam extinguisher, Quick-acting CO2 extinguisher.

Major fire: Class B foam (not alcohol-resistant).

#### 5.1.2 Unsuitable extinguishing media:

Small fire: Water (quick-acting extinguisher, reel); risk of puddle expansion.

Major fire: Water; risk of puddle expansion.

# 5.2. Special hazards arising from the substance or mixture

On burning: release of toxic and corrosive gases/vapours (nitrous vapours, carbon monoxide - carbon dioxide). Polymerizes on exposure to water (moisture) and on exposure to temperature rise: pressure rise and possible bursting of container.

#### 5.3. Advice for firefighters

#### 5.3.1 Instructions:

Dilute toxic gases with water spray. Take account of toxic/corrosive precipitation water.

#### 5.3.2 Special protective equipment for fire-fighters:

Gloves (EN 374). Face shield (EN 166). Protective clothing (EN 14605 or EN 13034). Heat/fire exposure: self-contained breathing apparatus (EN 136 + EN 137).

# SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

No naked flames.

#### 6.1.1 Protective equipment for non-emergency personnel

See section 8.2

#### 6.1.2 Protective equipment for emergency responders

Gloves (EN 374). Face shield (EN 166). Protective clothing (EN 14605 or EN 13034).

Suitable protective clothing

See section 8.2

#### 6.2. Environmental precautions

Contain released product.

# 6.3. Methods and material for containment and cleaning up

Moisten the contaminated surfaces. Allow product to solidify and remove it by mechanical means. Clean contaminated surfaces with an excess of water. Wash clothing and equipment after handling.

# 6.4. Reference to other sections

See section 13.

# SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

### 7.1. Precautions for safe handling

Keep away from naked flames/heat. Gas/vapour heavier than air at 20°C. Observe strict hygiene. Keep container tightly closed.

# 7.2. Conditions for safe storage, including any incompatibilities

#### 7.2.1 Safe storage requirements:

Meet the legal requirements. Store in a cool area. Store in a dry area. Keep container in a well-ventilated place. Keep out of direct sunlight. Keep only in the original container.

#### 7.2.2 Keep away from:

Heat sources, oxidizing agents, (strong) acids.

# 7.2.3 Suitable packaging material:

No data available

# 7.2.4 Non suitable packaging material:

No data available

# 7.3. Specific end use(s)

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

# SECTION 8: Exposure controls/personal protection

# 8.1. Control parameters

# 8.1.1 Occupational exposure

# a) Occupational exposure limit values

If limit values are applicable and available these will be listed below.

#### Belgium

| 2-Cyanoacrylate d'éthyle | Time-weighted average exposure limit 8 h | 0.2 ppm                |
|--------------------------|--|------------------------|
|                          | Time-weighted average exposure limit 8 h | 1.04 mg/m <sup>3</sup> |
| Anhydride phtalique      | Time-weighted average exposure limit 8 h | 1 ppm                  |
|                          | Time-weighted average exposure limit 8 h | 6.2 mg/m <sup>3</sup>  |
| Hydroquinone             | Time-weighted average exposure limit 8 h | 1 mg/m³                |

#### France

| Anhydride phtalique | Short time value (VL: Valeur non réglementaire indicative) | 6 mg/m³ |
|---------------------|--|---------|
| Hydroquinone        | Time-weighted average exposure limit 8 h (VL: Valeur non   | 2 mg/m³ |
|                     | réglementaire indicative)                                  |         |

# Austria

| 1,4-Dihydroxybenzol      | Tagesmittelwert (MAK)        | 2 mg/m³             |
|--------------------------|------------------------------|---------------------|
|                          | Kurzzeitwert 5(Mow) 8x (MAK) | 4 mg/m <sup>3</sup> |
| Cyanacrylsäureethylester | Tagesmittelwert (MAK)        | 2 ppm               |
|                          | Tagesmittelwert (MAK)        | 9 mg/m³             |
| Phthalsäureanhydrid      | Tagesmittelwert (MAK)        | 1 mg/m³             |
|                          | Kurzzeitwert 5(Mow) 8x (MAK) | 2 mg/m³             |

#### UK

| OK .                |   |                       |
|---------------------|---|-----------------------|
| Ethyl cyanoacrylate | Short time value (Workplace exposure limit (EH40/2005))                         | 0.3 ppm               |
|                     | Short time value (Workplace exposure limit (EH40/2005))                         | 1.5 mg/m <sup>3</sup> |
| Hydroquinone        | Time-weighted average exposure limit 8 h (Workplace exposure limit (EH40/2005)) | 0.5 mg/m³             |
| Phthalic anhydride  | Time-weighted average exposure limit 8 h (Workplace exposure limit (EH40/2005)) | 4 mg/m³               |
|                     | Short time value (Workplace exposure limit (EH40/2005))                         | 12 mg/m³              |

# USA (TLV-ACGIH)

| USA (TEV-ACGIR)                  |  |                               |
|----------------------------------|--|-------------------------------|
| Cyanoacrylates, Ethyl and Methyl | Time-weighted average exposure limit 8 h (TLV - Adopted Value) | 0.2 ppm                       |
|                                  | Short time value (TLV - Adopted Value)                         | 1 ppm                         |
| Hydroquinone                     | Time-weighted average exposure limit 8 h (TLV - Adopted Value) | 1 mg/m³                       |
| Phthalic anhydride               | Time-weighted average exposure limit 8 h (TLV - Adopted Value) | 0.002 mg/m³ (IFV)             |
|                                  | Short time value (TLV - Adopted Value)                         | 0.005 mg/m <sup>3</sup> (IFV) |

(IFV): Inhalable fraction and vapor

# b) National biological limit values

If limit values are applicable and available these will be listed below.

# USA (BEI-ACGIH)

| Methemoglobin inducers | Blood: during or end of shift | 5 % of hemoglobin | Background, Nonspecific |
|------------------------|-------------------------------|-------------------|-------------------------|
| (Methemoglobin)        |                               |                   |                         |

# 8.1.2 Sampling methods

| Product name          | Test  | Number |
|-----------------------|-------|--------|
| Ethyl 2-Cyanoacrylate | OSHA  | 55     |
| Hydroquinone          | NIOSH | 5004   |
| Hydroquinone          | OSHA  | 2094   |
| Phthalic Anhydride    | OSHA  | 90     |

# 8.1.3 Applicable limit values when using the substance or mixture as intended

If limit values are applicable and available these will be listed below.

# 8.1.4 Threshold values

# DNEL/DMEL - Workers

ethyl 2-cyanoacrylate

| Effect level (DNEL/DMEL) | Туре                                  | Value      | Remark |

# 8.1.5 Control banding

If applicable and available it will be listed below.

#### 8.2. Exposure controls

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

# 8.2.1 Appropriate engineering controls

Keep away from naked flames/heat. Measure the concentration in the air regularly. Carry operations in the open/under local exhaust/ventilation or with respiratory protection.

# 8.2.2 Individual protection measures, such as personal protective equipment

Observe strict hygiene. Do not eat, drink or smoke during work.

# a) Respiratory protection:

Full face mask with filter type A at conc. in air > exposure limit.

b) Hand protection:
Protective gloves against chemicals (EN 374).

| Trottective glove. | Troteetive gloves against enemicals (Elv 574). |           |                  |        |  |  |  |  |  |

# SECTION 9: Physical and chemical properties

# 9.1. Information on basic physical and chemical properties

| Physical form             | Liquid                                |
|---------------------------|---------------------------------------|
| Viscosity                 | Viscous                               |
| Odour                     | Characteristic odour                  |
| Odour threshold           | No data available in the literature   |
| Colour                    | Colourless                            |
| Particle size             | Not applicable (liquid)               |
| Explosion limits          | No data available in the literature   |
| Flammability              | Not classified as flammable           |
| Log Kow                   | Not applicable (mixture)              |
| Dynamic viscosity         | No data available in the literature   |
| Kinematic viscosity       | No data available in the literature   |
| Melting point             | No data available in the literature   |
| Boiling point             | 150 °C                                |
| Relative vapour density   | No data available in the literature   |
| Vapour pressure           | No data available in the literature   |
| Solubility                | Water; insoluble                      |
| Relative density          | 1.05                                  |
| Absolute density          | 1050 kg/m³                            |
| Decomposition temperature | No data available in the literature   |
| Auto-ignition temperature | No data available in the literature   |
| Flash point               | 87 °C                                 |
| рН                        | Not applicable (non-soluble in water) |

#### 9.2. Other information

No data available

# SECTION 10: Stability and reactivity

#### 10.1. Reactivity

Temperature above flashpoint: higher fire/explosion hazard.

#### 10.2. Chemical stability

 ${\bf Stable\ under\ normal\ conditions.}$ 

# 10.3. Possibility of hazardous reactions

Polymerizes on exposure to water (moisture) and on exposure to temperature rise: pressure rise and possible bursting of container.

### 10.4. Conditions to avoid

#### **Precautionary measures**

Keep away from naked flames/heat.

# 10.5. Incompatible materials

Oxidizing agents, (strong) acids.

#### 10.6. Hazardous decomposition products

On burning: release of toxic and corrosive gases/vapours (nitrous vapours, carbon monoxide - carbon dioxide).

# SECTION 11: Toxicological information

# 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

# 11.1.1 Test results

# **Acute toxicity**

# AL-FIX FLEXIBLE

No (test)data on the mixture available

Judgement is based on the relevant ingredients

# SECTION 13: Disposal considerations

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

# 13.1. Waste treatment methods

# 13.1.1 Provisions relating to waste

#### **European Union**

Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014 and Regulation (EU) No 2017/997. Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

08 04 09\* (wastes from MFSU of adhesives and sealants (including waterproofing products): waste adhesives and sealants containing organic solvents or other hazardous substances). Depending on branch of industry and production process, also other waste codes may be applicable.

# 13.1.2 Disposal methods

Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Do not discharge into drains or the environment. Dispose of at authorized waste collection point.

#### 13.1.3 Packaging/Container

Proper shipping name

#### **European Union**

Waste material code packaging (Directive 2008/98/EC).

15 01 10\* (packaging containing residues of or contaminated by dangerous substances).

# **SECTION 14: Transport information**

#### Road (ADR)

# SECTION 15: Regulatory information

# 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture European legislation:

VOC content Directive 2010/75/EU

| VOC content       | Remark |
|-------------------|--------|
| 70 % - 90 %       |        |
| 735 g/l - 945 g/l |        |

Directive 2012/18/EU (Seveso III)

Not subject to registration according to Directive 2012/18/EU (Seveso III)

### REACH Annex XVII - Restriction

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

| and use of certain dangerous substances, mixtures and articles.           |   |   |  |  |
|---|---|---|--|--|
|   | Designation of the substance, of the group of substances or of the mixture  | Conditions of restriction   |  |  |
| · ethyl 2-cyanoacrylate   | Liquid substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008:  (a) hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8 types A and B, 2.9, 2.10, 2.12, 2.13 categories 1 and 2, 2.14 categories 1 and 2, 2.15 types A to F;  (b) hazard classes 3.1 to 3.6, 3.7 adverse effects on sexual function and fertility or on development, 3.8 effects other than narcotic effects, 3.9 and 3.10;  (c) hazard class 4.1;  (d) hazard class 5.1.  | 1. Shall not be used in:  — ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays,  — tricks and jokes, — games for one or more participants, or any article intended to be used as such, even with ornamental aspects, 2. Articles not complying with paragraph 1 shall not be placed on the market. 3. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or perfume, or both, if they: — can be used as fuel in decorative oil lamps for supply to the general public, and, — present an aspiration hazard and are labelled with H304, 4. Decorative oil lamps for supply to the general public shall not be placed on the market unless they conform to the European Standard on Decorative oil lamps (EN 14059) adopted by the European Committee for Standardisation (CEN). 5. Without prejudice to the implementation of other Community provisions relating to the classification, packaging and labelling of dangerous substances and mixtures, suppliers shall ensure, before the placing on the market, that the following requirements are met: a) lamp oils, labelled with H304, intended for supply to the general public are visibly, legibly and indelibly marked as follows: "Keep lamps filled with this liquid out of the reach of children"; and, by 1 December 2010, "Just a sip of lamp oil — or even sucking the wick of lamps — may lead to life-threatening lung damage"; b) grill lighter fluids, labelled with H304, intended for supply to the general public are legibly and indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may lead to life threatening lung damage"; c) lamp oils and grill lighters, labelled with H304, intended for supply to the general public are packaged in black opaque containers not exceeding 1 litre by 1 December 2010. |  |  |
| · ethyl 2-cyanoacrylate<br>· phthalic anhydride<br>· 1,4-dihydroxybenzene | Substances falling within one or more of the following points:  (a) substances classified as any of the following in Part 3 of Annex VI to Regulation (EC) No 1272/2008:  — carcinogen category 1A, 1B or 2, or germ cell mutagen category 1A, 1B or 2, but excluding any such substances classified due to effects only following exposure by inhalation  — reproductive toxicant category 1A, 1B or 2 but excluding any such substances classified due to effects only following exposure by inhalation  — skin sensitiser category 1, 1A or 1B  — skin corrosive category 1, 1A, 1B or 1C or skin irritant category 2  — serious eye damage category 1 or eye irritant category 2  (b) substances listed in Annex II to Regulation | Mixtures for tattooing purposes are subject to the restrictions of Regulation (EU) 2020/2081  |  |  |

# 15.2. Chemical safety assessment

No chemical safety assessment has been conducted for the mixture.

# SECTION 16: Other information

# Full text of any H- and EUH-statements referred to under section 3:

H302 Harmful if swallowed.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H319 Causes serious eye irritation.

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

H335 May cause respiratory irritation.

H341 Suspected of causing genetic defects.

H351 Suspected of causing cancer.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

EUH202 Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.

EUH208 Contains a sensitising substance. May produce an allergic reaction.

The information in this safety data sheet is based on data and samples provided to BIG. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. BIG does not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is only to be used within the European Union, Switzerland, Iceland, Norway and Liechtenstein. Any use outside of this area is at your own risk. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your BIG licence agreement or when this is failing the general conditions of BIG. All intellectual property rights to this sheet are the property of BIG and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
