

Novafuel Parts Cleaner

POWERFUL CLEANER FOR COMBUSTION POLLUTION

- ✓ Clears the EGR valves and prevents them from blocking.
- ✓ Can be used for polluted parts of diesel and fuel engines.
- ✓ Contains lubricants and anti-wearing additives.

Technical Info

- Composition: mixture of aliphatic and aromatic hydrocarbons with modified mineral oils and octane boosters.
- Look: clear blue.
- Scent: strong aromatic.
- Storage life: 36 months, dry, cool and frost free.
- Safety measures: please consult the safety data sheet.

Packing

Novafuel Parts Cleaner - aerosol 400ml 741104000

Product [NPA]

Characteristics

Novafuel Parts Cleaner is a strong but safe cleaner in aerosol for the removal of common oxidation and pollution of parts, repairs engine performances and is safe for catalysts. Preventative cleaning of the EGR valve prevents blocking.

Applications

Clears the EGR valves and prevents them from blocking.
 Cleans: inlet manifolds, air slides, injectors, gas valve housing, air valves, turbo components, air mass meters, carburetors...

Use

Choice between two nozzles:

1. Easy aiming on parts that are difficult to reach, also with an extension piece.
2. With its spraying function ideal during starting problems.

Novafuel Parts Cleaner can also be used for pollution combinations such as oxidation/grease deposit.

Let the product operate.

When a residue of the product and/or propellant stays behind, remove with Novair or compressed air.

Give moving parts aftercare with Novafuel Care and Protect for extra protection and lubrication (f. ex. EGR valve)
