Product [PAT]

Characteristics

Novapatch is a self-adhesive, haemostatic bandage that can be applied on wet or even dirty hands. Novapatch is manufactured of cotton that is impregnated in a disinfectant and haemostatic product.

Use

- Tear off +/- 25 cm, remove the papers and turn around the finger.
 - Press and continue to wrap.
 - Close the top and roll up the end to secure the band-aid.
- Folded a few times, can also be used as a compress.
