Product [MCC]

Characteristics

- Multiclean Car is a cleaner and degreaser designed specifically for the automotive and heavy-duty market: safe for all types of materials, from glass and plastic to textiles.
- Multiclean Car can be applied as foam to ensure proper functioning on vertical surfaces, and to guarantee surface action.
- Multiclean Car can also be applied as a liquid to penetrate for deep cleaning.
- Easy and safe to use, even on sensitive surfaces, contains no abrasive and leaves no spots or streaks.

Applications

- Safe cleaning and degreasing of all surfaces: chrome, paint, plastic-coated surfaces, rims, seat and door upholstery, carpet, clothing, wind guards, headlights, car windows, ...
- Removes forms of natural pollution such as: nicotine, soft drinks, insect droppings, dead insects, grease, dirt, light resins, and even shoe polish and rubber stripes.

Use

Foaming effect: mount the trigger with extension tube on the can.

Liquid: use the Novatio Pressure Bottle.

- Spray the surface that requires cleaning sparingly and leave for a few moments.
- Remove the loosened dirt with a clean cloth and polish with a clean, dry cloth.

Use Novakleen for extreme soiling on textile.
