- Safety measures: consult the Safety Data Sheet.

## Packing

Inox-Pro - aerosol 400ml

480504000

## Product

### Characteristics

Inox-Pro cleans, embellishes and protects in 1 action. Inox-Pro protects and cleans matt or polished metal surfaces, like Inox, aluminium, chromium, non-ferrous metals,... Inox-Pro leaves an antistatic layer and prevents dirt from sticking to the surface. Inox-Pro can also be used for the treatment, protection and cleaning of ceramic parts, treated wood, glass and plastics. Inox-Pro does not affect glass, plastic or rubbers.

### Applications

- Cleaning of stainless steel and metals, windows, kitchens, doors, elevators, taps, cooker hoods, industrial kitchens, bathroom furniture,...
- Cleaning and protecting chrome parts on cars, like exhausts, bull bars,...

## Use

- Shake the canister well before use.
- Spray evenly on the surface.
- With a dry, soft cloth, spread it out thinly and then bring it to a shine.
