

Slip Stop

GUARANTEES THE OPTIMAL WORKING OF DRIVE BELTS

- ✓ Improves grip.
- ✓ Extends life span and increases yield.
- ✓ Excellent adhesion.
- ✓ Protection for drive belts.
- ✓ Protects and prevents whistling, squeaking and creaking.
- ✓ Removes contamination.
- ✓ Does not attract any dirt or dust.

Technical Info

- Basis: typolin adhesive agent and solvent, resin and tar free.
- Density: 0,64 g/ml.
- Propellant propane/butane.
- Odour: solvent.
- Resistance: water and saltwater
- Shelf life: 12 months, keep dry, cool and frost-proof.
- Safety measures: consult the Safety Data Sheet.

Packing

Slip Stop - aerosol 400ml

132241000

Product

Characteristics

Slip Stop has been specially designed to reduce slipping by drive belts in both automotive/HD and industrial installations. Slip Stop is ideal for use in moist environments and is resistant to saltwater. Slip Stop offers excellent adhesion and produces an immediate result. Slip Stop increases lifespan by penetrating deep into pores and thus forming a flexible final layer.

Applications

Applicable in industrial, automotive, marine and agricultural sectors, ...:

- column drilling machines
- metal and wood lathes
- milling machines
- moving sidewalks and other tool machines and vehicles
- drive and coupling belts for ventilators, washing machines and dishwashers, lawn mowers, concrete mixers, cars, trucks, tractors
- belts in hi-fi equipment, videos and household appliances

Use
