Product [CAH R&D]

Characteristics

- Professional descaler for industrial applications, ideal for removing mineral residues, limescale and oxidation.
- Works quickly and is economical in use.

Applications

Ideal for removing saltpetre, lime and cement-based residues from doors, gates and window profiles.

Use

- Use on windows and doors: leave to act on saltpetre or cement residues for a maximum of 30 seconds, then rinse immediately with Fa Clean or Multifoam Windows and Doors.
- Always use the correct personal protective equipment (gloves, safety glasses, etc.).
