Packing

Fa Clean Windows and Doors - bottle 1L 482527112

Product [FAC R&D]

Characteristics

- Safe cleaner for most materials. Can be applied as foam for surface cleaning and vertical applications and liquid for depth treatment if required.
- Safe for most materials and easy to apply in foam or liquid form.
- Does not contain abrasives and won't leave any marks or streaks.

Applications

For the removal of natural residues such as: nicotine, soft drinks, insects, grease, dirt, light resins and even shoe polish and rubber stripes.

Use

- Foaming action: fit the trigger with extension tube on the bottle.
- Liquid: fit the other nozzle.
- Spray on the surface.
- Give it time to act depending on the soiling.
- Wipe off with a clean cloth.
- Finish with a dry cloth.

For best results on smooth surfaces use Novawipe Microfibre. For extreme soiling on textile use Novakleen. Use the Novatio Pressure Bottle to treat expansive surfaces.
