Product

Characteristics

- An universal cleansing agent which can be used safely for both gun cleaning and degreasing.
- Is very effective and evaporates quickly, has a very high dissolving ability and contains no sylene or toluene.
- Is not appropriate for use on synthetic materials or painted surfaces. In case of doubt, test first.

Applications

- Ideal for detaching old, hardened greases.
- Removal of paint splashes on tiles.
- Cleans used old paintbrushes.
- Ideal etching agent for plastics - improves adhesion of later gluing and overpainting - makes the surface porous and clean.
- Removes glue residues.
- Removes ink (e.g. rubber rolls in printing works).

Use
