Product [TIF]

Characteristics

Tire Foam contains colorless silicone oil for cleaning, feeding and protecting new and used tires, has a long-term water-repellent effect and protects the rubber tires against discolouring, cracking and staining. Tire Foam does not contain color pigments for a flawless result on nearby materials.

Applications

- Applicable to car and motorcycle tires, natural rubbers, synthetic polymers, polyesters, PVC, etc. .
- Gives the rubber tires of both new showroom cars and second-hand cars a pleasant view.
- Cleans all tires and protects against discoloration, cracking and splashing water.

Use

- Use at room temperature.
- Shake before use.
- Apply to the side of the tire.
- Allow to work in for a while and rub off excess.
