- Biodegradable: yes.
- Shelf life: 60 months, keep dry, cool and frost-proof.

Packing

Tire Paste white - jar 5kg

233990000

Product [TRP]

Characteristics

Tire Paste is a fast-drying grease for mounting and dismounting all tyres. It is effective, safe and faster because of its high lubricating power and is also biodegradable. It nourishes the tyres and prevents premature rupture and aging. It prevents the tyre from sticking to the rim, which facilitates later disassembly.

Use

- Apply using Tire Paste Brush.
- Remove or fit tyre immediately.
- Clean rim and tyre after assembly.
