SAFETY DATA SHEET

🗖 novatio

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2020/878

NOVALUBE BRUSH PRESSPACK

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name Registration number REACH Product type REACH : NOVALUBE BRUSH PRESSPACK

: Not applicable (mixture)

: Special container containing a substance/mixture : The information refers to the substance/mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

<u>1.2.1 Relevant identified uses</u> Lubricating grease

1.2.2 Uses advised against

No uses advised against known

1.3. Details of the supplier of the safety data sheet

Supplier of the safety data sheet

Novatio* Industrielaan 5B B-2250 Olen ☎ +32 14 25 76 40 ➡ +32 14 22 02 66 info@novatio.be *NOVATIO is a registered trademark of Novatech International N.V.

Manufacturer of the product

1.4. Emergency telephone number

24h/24h (Telephone advice: English, French, German, Dutch) : +32 14 58 45 45 (BIG)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classified as dangerous according to the criteria of Regulation (EC) No 1272/2008				
Class	Category	Hazard statements		
Aerosol	category 3	H229: Pressurised container: May burst if heated.		
Eye Dam.	category 1	H318: Causes serious eye damage.		
Aquatic Acute	category 1	H400: Very toxic to aquatic life.		
Aquatic Chronic	category 2	H411: Toxic to aquatic life with long lasting effects.		

2.2. Label elements

Revision number: 0500 (supersedes revision 0400 of 2022-01-20)

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

P305 + P351 + P338

Continue rinsing.

P310 P410 + P412 Immediately call a POISON CENTER/doctor.

Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122°F.

2.3. Other hazards

May contribute to the greenhouse effect

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name REACH Registration No	CAS No EC No Conc. (C) Classification according to CLP		Note	Remark	M-factors and ATE	
distillates (petroleum), hydrotreated light naphthenic 01-2119480375-34	64742-53-6 265-156-6	10% ≤C≤25%	Asp. Tox. 1; H304	(1)(2)(6)(10)	Constituent	
calcium dihydroxide 01-2119475151-45	1305-62-0 215-137-3	5%≤C<10%	Eye Dam. 1; H318 Skin Irrit. 2; H315 STOT SE 3; H335	(1)(2)	Constituent	
aluminium powder 01-2119529243-45	7429-90-5 231-072-3	3%≤C≤5%	Flam. Sol. 1; H228 Water-react. 2; H261	(1)(2)(10)	Constituent	
copper	7440-50-8 231-159-6	3%≤C≤5%	Acute Tox. 4; H302 (1)(2)(10) Aquatic Acute 1; H400 Aquatic Chronic 2; H411		Constituent	M: 10 (Acute, ECHA)
zinc oxide 01-2119463881-32	1314-13-2 215-222-5	3%≤C≤5%	Aquatic Acute 1; H400 (1)(2) Aquatic Chronic 1; H410		Constituent	M: 1 (Acute, ECHA) M: 1 (Chronic, ECHA)
zinc powder - zinc dust (stabilised) 01-2119467174-37	7440-66-6 231-175-3	1%≤C≤3%	Aquatic Acute 1; H400 Aquatic Chronic 1; H410	(1)(10)	Constituent	M: 1 (Acute, ECHA (registration dossier)) M: 1 (Chronic, ECHA (registration dossier))

(1) For H- and EUH-statements in full: see section 16

(2) Substance with a Community workplace exposure limit

(6) Enumerated in Annex VI of Regulation (EC) No. 1272/2008 but the classification has been adapted after evaluation of available test data (10) Subject to restrictions of Annex XVII of Regulation (EC) No. 1907/2006

SECTION 4: First aid measures

4.1. Description of first aid measures

General:

Observe (own) safety. If possible, approach victim and check vital functions. In case of injury and/or intoxication, call the European emergency number 112. Treat symptoms starting with most life-threatening injuries and disorders. Keep victim under observation, possibility of delayed symptoms.

After inhalation:

Remove victim into fresh air. In case of respiratory problems, consult a doctor/medical service.

After skin contact:

If possible, wipe up/dry remove chemical. Then rinse/shower immediately with (lukewarm) water. If irritation persists, consult a doctor/medical service.

After eye contact:

Rinse immediately with plenty of water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Consult a doctor/medical service.

After ingestion:

Rinse mouth with water. If you feel unwell, consult a doctor/medical service. Do not wait for symptoms to occur to consult Poison Center.

4.2. Most important symptoms and effects, both acute and delayed

4.2.1 Acute symptoms After inhalation: No effects known. After skin contact: No effects known. After eve contact:

Reason for revision: 2; 3; 4; 6; 7; 8; 9; 11; 12; 13; 15

Corrosion of the eye tissue. After ingestion: No effects known.

4.2.2 Delayed symptoms

No effects known.

4.3. Indication of any immediate medical attention and special treatment needed

If applicable and available it will be listed below.

SECTION 5: Firefighting measures

5.1. Extinguishing media

5.1.1 Suitable extinguishing media:

Small fire: Quick-acting ABC powder extinguisher, Quick-acting BC powder extinguisher, Quick-acting class B foam extinguisher, Quick-acting CO2 extinguisher.

Major fire: Class B foam (not alcohol-resistant).

5.1.2 Unsuitable extinguishing media:

Small fire: Water (quick-acting extinguisher, reel); risk of puddle expansion.

Major fire: Water; risk of puddle expansion.

5.2. Special hazards arising from the substance or mixture

On burning: release of toxic and corrosive gases/vapours (nitrous vapours, carbon monoxide - carbon dioxide) and formation of metal oxides. Pressurised container: May burst if heated.

5.3. Advice for firefighters

5.3.1 Instructions:

If exposed to fire cool the closed containers by spraying with water. Physical explosion risk: extinguish/cool from behind cover. Do not move the load if exposed to heat. After cooling: persistant risk of physical explosion. Dilute toxic gases with water spray. Take account of toxic/corrosive precipitation water. Use water moderately and if possible collect or contain it. Take account of environmentally hazardous firefighting water.

5.3.2 Special protective equipment for fire-fighters:

Gloves (EN 374). Safety glasses (EN 166). Protective clothing (EN 14605 or EN 13034). Heat/fire exposure: self-contained breathing apparatus (EN 136 + EN 137).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

No naked flames. Exposure to fire/heat: keep upwind. Exposure to fire/heat: consider evacuation. Exposure to fire/heat: have neighbourhood close doors and windows.

6.1.1 Protective equipment for non-emergency personnel

See section 8.2

6.1.2 Protective equipment for emergency responders

Gloves (EN 374). Safety glasses (EN 166). Protective clothing (EN 14605 or EN 13034).

Suitable protective clothing See section 8.2

6.2. Environmental precautions

Contain released product. Dam up the solid spill. Prevent soil and water pollution. Prevent spreading in sewers.

6.3. Methods and material for containment and cleaning up

Solid spill: cover with sand/earth. Scoop solid spill into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with a soap solution. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

6.4. Reference to other sections

See section 13.

SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

7.1. Precautions for safe handling

Keep away from naked flames/heat. Observe normal hygiene standards. Keep container tightly closed. Do not discharge the waste into the drain.

7.2. Conditions for safe storage, including any incompatibilities

7.2.1 Safe storage requirements:

Storage temperature: < 50 °C. Meet the legal requirements. Store in a cool area. Keep container in a well-ventilated place. Keep out of direct sunlight.

7.2.2 Keep away from:

Heat sources, oxidizing agents, (strong) acids.

- 7.2.3 Suitable packaging material:
 - No data available

7.2.4 Non suitable packaging material:

Reason for revision: 2; 3; 4; 6; 7; 8; 9; 11; 12; 13; 15

No data available

7.3. Specific end use(s)

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1 Occupational exposure

a) Occupational exposure limit values If limit values are applicable and available these will be listed below.

EU

Calcium dihydroxide	Time-weighted average exposure limit 8 h (Indicative occupational	1 mg/m³ (1)
	exposure limit value)	
	Short time value (Indicative occupational exposure limit value)	4 mg/m³ (1)

(1) (2): Respirable fraction

Belgium

- 0 -		
Aluminium (métal et composés insolubles)	Time-weighted average exposure limit 8 h 1 mg/m ³ (1)	
Calcium (dihydroxyde de)	Time-weighted average exposure limit 8 h	1 mg/m³ (1)
	Short time value	4 mg/m³ (1)
Cuivre (en Cu)	Time-weighted average exposure limit 8 h	0.2 mg/m³ (2)
	Time-weighted average exposure limit 8 h	1 mg/m³ (3)
Huiles minérales (brouillards)	Time-weighted average exposure limit 8 h	5 mg/m ³
	Short time value	10 mg/m ³
Zinc (oxyde de)	Time-weighted average exposure limit 8 h	2 mg/m³ (1)
	Short time value	10 mg/m³ (1)

(1) Fraction alvéolaire (2) fumées

(3) poussières et brouillards de

The Netherlands

Calcium-dihydroxide	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	0.33 ppm (1)
	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	1 mg/m³ (1)
	Short time value (Public occupational exposure limit value)	1.3 ppm (1)
	Short time value (Public occupational exposure limit value)	4 mg/m³ (1)
Koper en anorganische koperverbindingen	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	0.038 ppm (2)
	Time-weighted average exposure limit 8 h (Public occupational exposure limit value)	0.1 mg/m³ (2)

8.1.5 Control banding

If applicable and available it will be listed below.

8.2. Exposure controls

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

8.2.1 Appropriate engineering controls

Keep away from naked flames/heat. Measure the concentration in the air regularly. Carry operations in the open/under local exhaust/ventilation or with respiratory protection.

8.2.2 Individual protection measures, such as personal protective equipment

Observe normal hygiene standards. Do not eat, drink or smoke during work.

a) Respiratory protection:

Respiratory protection not required in normal conditions. Full face mask with filter type A at conc. in air > exposure limit. b) Hand protection:

Protective gloves against chemicals (EN 374).

Materials	Measured breakthrough time	Thickness	Protection index	Remark
nitrile rubber	> 60 minutes	0.4 mm	Class 3	
viton	> 240 minutes	0.7 mm	Class 5	
butyl rubber	> 240 minutes	0.7 mm	Class 5	

c) Eye protection:

Safety glasses (EN 166).

d) Skin protection:

Protective clothing (EN 14605 or EN 13034).

8.2.3 Environmental exposure controls:

See sections 6.2, 6.3 and 13

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical form	Press-pack	
	Paste	
Viscosity	Syrupy	
Colour	Grey	
Odour	Characteristic odour	
Odour threshold	No data available in the literature	
Melting point	No data available in the literature	
Boiling point	No data available in the literature	
Flammability	Not classified as flammable	
Explosion limits	No data available in the literature	
Flash point	> 93 °C	
Auto-ignition temperature	No data available in the literature	
Decomposition temperature	No data available in the literature	
рН	Not applicable (non-soluble in water)	
Kinematic viscosity	No data available in the literature	
Dynamic viscosity	No data available in the literature	
Solubility	Water ; insoluble	
Log Kow	Not applicable (mixture)	
Vapour pressure	4270 hPa ; Propellant	
Absolute density	1200 kg/m³ ; 20 °C ; Liquid	
Relative density	1.20 ; 20 °C ; Liquid	
Relative vapour density	No data available in the literature	
Particle size		

9.2. Other information

No data available

SECTION 10: Stability and reactivity

10.1. Reactivity

Heating increases the fire hazard.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions No data available.

10.4. Conditions to avoid

Precautionary measures

Keep away from naked flames/heat.

10.5. Incompatible materials

Oxidizing agents, (strong) acids.

10.6. Hazardous decomposition products

On burning: release of toxic and corrosive gases/vapours (nitrous vapours, carbon monoxide - carbon dioxide) and formation of metal oxides.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

11.1.1 Test results

Acute toxicity

NOVALUBE BRUSH PRESSPACK

No (test)data on the mixture available

Judgement is based on the relevant ingredients distillates (petroleum), hydrotreated light naphthenic

Groundwater

Groundwater pollutant

zinc powder - zinc dust (stabilised)

Greenhouse gases Not included in the list of fluorinated greenhouse gases (Regulation (EU) No 2024/573) Ozone-depleting potential (ODP)

Not classified as dangerous for the ozone layer (Regulation (EC) No 2024/590)

SECTION 13: Disposal considerations

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

13.1. Waste treatment methods

13.1.1 Provisions relating to waste

European Union

Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014 and Regulation (EU) No 2017/997. Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

16 05 04* (gases in pressure containers and discarded chemicals: gases in pressure containers (including halons) containing hazardous substances). Depending on branch of industry and production process, also other waste codes may be applicable.

13.1.2 Disposal methods

Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Specific treatment. Do not discharge into drains or the environment. Dispose of at authorized waste collection point.

13.1.3 Packaging/Container

European Union

Waste material code packaging (Directive 2008/98/EC).

15 01 10* (packaging containing residues of or contaminated by dangerous substances).

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

European legislation:

Explosives precursors

Due to the presence of one or more components in this mixture, acquisition, introduction, possession or use of this product by the general public is restricted by Regulation (EU) 2019/1148. All suspicious transactions, and significant disappearances and thefts should be reported to the relevant national contact point.

VOC content Directive 2010/75/EU

VOC content	Remark
0 %	
0 g/l	

Directive 2012/18/EU (Seveso III)

Threshold values under normal circumstances

Substance or category	Low tier (tonnes)	Top tier (tonnes)	Group	For this substance or mixture the summation rule has to be applied for:
E1 Hazardous to the Aquatic Environment in Category Acute 1 or Chronic 1	100	200	None	Eco-toxicity

REACH Candidate list

Does not contain component(s) included in candidate list of substances of very high concern (SVHC) for authorisation (Article 59 of Regulation (EC) No 1907/2006)

REACH Annex XIV - Authorisation

Does not contain component(s) included in Annex XIV of Regulation (EC) No 1907/2006: list of substances subject to authorisation

REACH Annex XVII - Restriction

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles.

ubstances or mixtures fulfilling the for any of the following hazard classes gories set out in Annex I to Regulation 1272/2008: and B, 2.9, 2.10, 2.12, 2.13 categories , 2.14 categories 1 and 2, 2.15 types A ard classes 3.1 to 3.6, 3.7 adverse on sexual function and fertility or on ment, 3.8 effects other than narcotic 3.9 and 3.10; ard class 4.1; ard class 5.1.	 Shall not be used in: ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays, tricks and jokes, games for one or more participants, or any article intended to be used as such, even with ornamental aspects, Articles not complying with paragraph 1 shall not be placed on the market. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or perfume, or both, if they:
	and indeiby marked as follows: "Keep lamps filled with this liquid out of the reach of children"; and, by 1 December 2010, "Just a sip of lamp oil — or even sucking the wick of lamps — may lead to life- threatening lung damage"; b) grill lighter fluids, labelled with H304, intended for supply to the general public are legibly and indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may lead to life threatening lung damage"; c) lamp oils and grill lighters, labelled with H304, intended for supply to the general public are public are packaged in black opaque containers not exceeding 1 litre by 1 December 2010.
nces classified as flammable gases y 1 or 2, flammable liquids categories 3, flammable solids category 1 or 2, cces and mixtures which, in contact atter, emit flammable gases, category 1, pyrophoric liquids category 1 or oric solids category 1, regardless of or they appear in Part 3 of Annex VI to gulation or not.	 Shall not be used, as substance or as mixtures in aerosol dispensers where these aerosol dispensers are intended for supply to the general public for entertainment and decorative purposes such as the following: metallic glitter intended mainly for decoration, artificial snow and frost, "whoopee" cushions, silly string aerosols, imitation excrement, horns for parties, decorative flakes and foams, artificial cobwebs, stilk bombs.
y Bio at o r g	1 or 2, flammable liquids categories flammable solids category 1 or 2, ces and mixtures which, in contact ter, emit flammable gases, category 1, yrophoric liquids category 1 or ric solids category 1, regardless of they appear in Part 3 of Annex VI to ulation or not.

Date of revision: 2025-04-27

	NOVALUBE BRU	SH PRESSPACK
		 Without prejudice to the application of other Community provisions on the classification, packaging and labelling of substances, suppliers shall ensure before the placing on the market that the packaging of aerosol dispensers referred to above is marked visibly, legibly and indelibly with: "For professional users only". By way of derogation, paragraphs 1 and 2 shall not apply to the aerosol dispensers referred to Article 8 (1a) of Council Directive 75/ 324/EEC. The aerosol dispensers referred to in paragraphs 1 and 2 shall not be placed on the market unless they conform to the requirements indicated.
 distillates (petroleum), hydrotreated ligit naphthenic 	 Substances falling within one or more of the following points: (a) substances classified as any of the following in Part 3 of Annex VI to Regulation (EC) No 1272/2008: carcinogen category 1A, 1B or 2, or germ cell mutagen category 1A, 1B or 2, but excluding any such substances classified due to effects only following exposure by inhalation reproductive toxicant category 1A, 1B or 2 but excluding any such substances classified due to effects only following exposure by inhalation reproductive toxicant category 1A, 1B or 2 but excluding any such substances classified due to effects only following exposure by inhalation skin sensitiser category 1, 1A or 1B skin corrosive category 1, 1A or 1B skin corrosive category 1 or eye irritant category 2 serious eye damage category 1 or eye irritant category 2 (b) substances listed in Annex II to Regulation (EC) No 1223/2009 of the European Parliament and of the Council (c) substances listed in Annex IV to Regulation (EC) No 1223/2009 for which a condition is specified in at least one of the columns g, h and i of the table in that Annex. The information in this safety data sheet is based on data and samples provided to BIG. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. BIG does not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is only to be used within the European Union, Switzerland, Iceland, Norway and Liechtenstein. Any use outside of this area is at your own risk. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your BIG licence agreement or when this is failing the general conditions of BIG. All intellectual property rights to this sheet are the property of BIG and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
