## SAFETY DATA SHEET

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2020/878

## PU CONSTRUCT

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name : PU CONSTRUCT
Registration number REACH : Not applicable (mixture)

Product type REACH : Mixture

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

#### 1.2.1 Relevant identified uses

Sealing compound

#### 1.2.2 Uses advised against

No uses advised against known

#### 1.3. Details of the supplier of the safety data sheet

#### Supplier of the safety data sheet

Novatio\*

Industrielaan 5B

B-2250 Olen

**2** +32 14 25 76 40

**4** +32 14 22 02 66

info@novatio.be

\*NOVATIO is a registered trademark of Novatech International N.V.

#### Manufacturer of the product

Novatech International N.V.

Industrielaan 5B

B-2250 Olen

**2** +32 14 85 97 37

**4** +32 14 85 97 38

info@novatech.be

#### 1.4. Emergency telephone number

 $24h/24h \ (Telephone \ advice: English, French, German, \ Dutch):$ 

+32 14 58 45 45 (BIG)

## **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

Classified as dangerous according to the criteria of Regulation (EC) No 1272/2008

| Classified as dariger | ous according to the c | interia di Regulation (EC) NO 1272/2008  |
|-----------------------|------------------------|--|
| Class                 | Category               | Hazard statements  |
| Carc.                 | category 2             | H351: Suspected of causing cancer.   |
| Resp. Sens.           | category 1             | H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| Skin Sens.            | category 1             | H317: May cause an allergic skin reaction.                                       |
| Skin Irrit.           | category 2             | H315: Causes skin irritation.  |
| Eye Irrit.            | category 2             | H319: Causes serious eye irritation.   |
| STOT SE               | category 3             | H335: May cause respiratory irritation.  |

#### 2.2. Label elements

Contains: 4,4'-methylenediphenyl diisocyanate; o-(p-isocyanatobenzyl)phenyl isocyanate; 4,4'-methylenediphenyl diisocyanate, isomers and homologues; 1,6-hexanediyl-bis(2-(2-(1-ethylpentyl)-3-oxazolidinyl)ethyl)carbamate; 2,2'-methylenediphenyl diisocyanate.

| Signal word  | Danger   |
|--------------|--|
| H-statements |  |
| H351         | Suspected of causing cancer.   |
| H334         | May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| H317         | May cause an allergic skin reaction.                                       |
| H315         | Causes skin irritation.  |
| H319         | Causes serious eye irritation.   |
| H335         | May cause respiratory irritation.  |

P-statements

P280 Wear protective gloves, protective clothing and eye protection/face protection.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

P308 + P313 IF exposed or concerned: Get medical advice/attention.

P342 + P311 If experiencing respiratory symptoms: Call a POISON CENTER/doctor. P403 + P233 Store in a well-ventilated place. Keep container tightly closed.

Supplemental information

As from 24 August 2023 adequate training is required before industrial or professional use.

#### 2.3. Other hazards

No other hazards known

## SECTION 3: Composition/information on ingredients

<sup>(2)</sup> Substance with a Community workplace exposure limit

<sup>(10)</sup> Subject to restrictions of Annex XVII of Regulation (EC) No. 1907/2006

## SECTION 4: First aid measures

#### 4.1. Description of first aid measures

#### General:

Observe (own) safety. If possible, approach victim and check vital functions. In case of injury and/or intoxication, call the European emergency number 112. Treat symptoms starting with most life-threatening injuries and disorders. Keep victim under observation, possibility of delayed symptoms.

#### After inhalation:

Remove victim into fresh air. In case of respiratory problems, consult a doctor/medical service.

If possible, wipe up/dry remove chemical. Then rinse/shower immediately with (lukewarm) water. If irritation persists, consult a

#### After eye contact:

Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, consult a doctor/medical service.

Rinse mouth with water. If you feel unwell, consult a doctor/medical service. Do not wait for symptoms to occur to consult Poison Center.

#### 4.2. Most important symptoms and effects, both acute and delayed

#### 4.2.1 Acute symptoms

#### After inhalation:

Irritation of the respiratory tract. Irritation of the nasal mucous membranes.

#### After skin contact:

Tingling/irritation of the skin.

#### After eye contact:

Irritation of the eye tissue.

#### After ingestion:

No effects known.

#### 4.2.2 Delayed symptoms

No effects known.

#### 4.3. Indication of any immediate medical attention and special treatment needed

If applicable and available it will be listed below.

## **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### 5.1.1 Suitable extinguishing media:

Small fire: Quick-acting ABC powder extinguisher, Quick-acting BC powder extinguisher, Quick-acting class B foam extinguisher, Quick-acting CO2 extinguisher. Major fire: Class B foam (alcohol-resistant), Water spray if puddle cannot expand.

#### 5.1.2 Unsuitable extinguishing media:

Small fire: Water (quick-acting extinguisher, reel); risk of puddle expansion.

Major fire: Water; risk of puddle expansion.

#### 5.2. Special hazards arising from the substance or mixture

On burning: release of toxic and corrosive gases/vapours (nitrous vapours, carbon monoxide - carbon dioxide).

#### 5.3. Advice for firefighters

#### 5.3.1 Instructions:

Dilute toxic gases with water spray. Take account of toxic/corrosive precipitation water. Take account of toxic fire-fighting water. Use water moderately and if possible collect or contain it.

#### 5.3.2 Special protective equipment for fire-fighters:

Gloves (EN 374). Face shield (EN 166). Protective clothing (EN 14605 or EN 13034). Heat/fire exposure: self-contained breathing apparatus (EN 136 + EN 137).

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

No naked flames.

#### 6.1.1 Protective equipment for non-emergency personnel

See section 8.2

#### 6.1.2 Protective equipment for emergency responders

Gloves (EN 374). Face shield (EN 166). Protective clothing (EN 14605 or EN 13034).

Suitable protective clothing

See section 8.2

#### 6.2. Environmental precautions

Contain released product. Dam up the liquid spill. Prevent spreading in sewers.

#### 6.3. Methods and material for containment and cleaning up

Reason for revision: 2, 3, 9, 12 Publication date: 2012-09-11

Date of revision: 2021-10-15

3 / 21 Revision number: 0400 BIG number: 62480

Take up liquid spill into inert absorbent material. Scoop solid spill into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with an excess of water. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

#### 6.4. Reference to other sections

See section 13.

#### SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

#### 7.1. Precautions for safe handling

Keep away from naked flames/heat. Observe very strict hygiene - avoid contact. Remove contaminated clothing immediately. Keep container tightly closed. Do not discharge the waste into the drain.

#### 7.2. Conditions for safe storage, including any incompatibilities

#### 7.2.1 Safe storage requirements:

Meet the legal requirements. Keep container in a well-ventilated place. Keep out of direct sunlight. Keep only in the original container.

#### 7.2.2 Keep away from:

Heat sources, metals, (strong) bases, peroxides.

#### 7.2.3 Suitable packaging material:

No data available

#### 7.2.4 Non suitable packaging material:

No data available

#### 7.3. Specific end use(s)

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

#### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

## 8.1.1 Occupational exposure

#### a) Occupational exposure limit values

4,4'-Diisocyanate de diphénylméthane (MDI)

If limit values are applicable and available these will be listed below.

#### Belgium

| France                               |  |                       |

#### 8.1.5 Control banding

If applicable and available it will be listed below.

#### 8.2. Exposure controls

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

#### 8.2.1 Appropriate engineering controls

Keep away from naked flames/heat. Measure the concentration in the air regularly. Carry operations in the open/under local exhaust/ventilation or with respiratory protection.

#### 8.2.2 Individual protection measures, such as personal protective equipment

Observe very strict hygiene - avoid contact. Do not eat, drink or smoke during work.

#### a) Respiratory protection:

Full face mask with filter type A. High vapour/gas concentration: self-contained breathing apparatus (EN 136 + EN 137).

#### b) Hand protection:

Protective gloves against chemicals (EN 374).

|                | Measured breakthrough time | Thickness | Protection index | Remark |
|----------------|----------------------------|-----------|------------------|--------|
| nitrile rubber | > 480 minutes              | 0.3 mm    | Class 6          |        |
| butyl rubber   | > 480 minutes              | 0.4 mm    | Class 6          |        |

#### c) Eye protection:

Combined eye and respiratory protection.

#### d) Skin protection:

Protective clothing (EN 14605 or EN 13034).

#### 8.2.3 Environmental exposure controls:

See sections 6.2, 6.3 and 13

## SECTION 9: Physical and chemical properties

# 9.1. Information on basic physical and chemical properties

| Physical form           | Paste                               |
|-------------------------|-------------------------------------|
| Odour                   | Characteristic odour                |
| Odour threshold         | No data available in the literature |
| Colour                  | Beige                               |
| Particle size           | Not applicable (liquid)             |
| Explosion limits        | No data available in the literature |
| Flammability            | Not classified as flammable         |
| Log Kow                 | Not applicable (mixture)            |
| Dynamic viscosity       | 40000 mPa.s - 70000 mPa.s           |
| Kinematic viscosity     | No data available in the literature |
| Melting point           | No data available in the literature |
| Boiling point           | No data available in the literature |
| Relative vapour density | No data available in the literature |
| Vapour pressure         | No data available in the literature |
| Solubility              | No data available in the literature |

Reason for revision: 2, 3, 9, 12 Publication date: 2012-09-11
Date of revision: 2021-10-15

Revision number: 0400 BIG number: 62480 6 / 21

| Relative density          | 1.42 - 1.46                         |
|---------------------------|-------------------------------------|
| Absolute density          | 1420 kg/m³ - 1460 kg/m³             |
| Decomposition temperature | No data available in the literature |
| Auto-ignition temperature | No data available in the literature |
| Flash point               | No data available in the literature |
| рН                        | No data available in the literature |

#### 9.2. Other information

No data available

## SECTION 10: Stability and reactivity

#### 10.1. Reactivity

Heating increases the fire hazard.

#### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

No data available.

#### 10.4. Conditions to avoid

#### **Precautionary measures**

Keep away from naked flames/heat.

#### 10.5. Incompatible materials

Metals, (strong) bases, peroxides.

#### 10.6. Hazardous decomposition products

On burning: release of toxic and corrosive gases/vapours (nitrous vapours, carbon monoxide - carbon dioxide).

## SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

11.1.1 Test results

#### Acute toxicity

#### PU CONSTRUCT

No (test)data on the mixture available

Judgement is based on the relevant ingredients

#### Conclusion

Contains component(s) that adsorb(s) into the soil

Contains component(s) with potential for mobility in the soil

#### 12.5. Results of PBT and vPvB assessment

Does not contain component(s) that meet(s) the criteria of PBT and/or vPvB as listed in Annex XIII of Regulation (EC) No 1907/2006.

#### 12.6. Endocrine disrupting properties

No evidence of endocrine disrupting properties

#### 12.7. Other adverse effects

#### PU CONSTRUCT

#### Greenhouse gases

None of the known components is included in the list of fluorinated greenhouse gases (Regulation (EU) No 517/2014)

#### Ozone-depleting potential (ODP)

Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009)

#### Groundwater

Groundwater pollutant

#### 2,2'-dimorpholinyldiethyl ether

#### Groundwater

Groundwater pollutant

#### Water ecotoxicity pH

pH shift

#### **SECTION 13: Disposal considerations**

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

#### 13.1. Waste treatment methods

#### 13.1.1 Provisions relating to waste

#### **European Union**

Not classified as hazardous waste when part A and part B are mixed and are fully cured. Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014 and Regulation (EU) No 2017/997.

Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

08 04 09\* (wastes from MFSU of adhesives and sealants (including waterproofing products): waste adhesives and sealants containing organic solvents or other hazardous substances).

08 05 01\* (wastes not otherwise specified in 08: waste isocyanates). Depending on branch of industry and production process, also other waste codes may be applicable.

#### 13.1.2 Disposal methods

Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Do not discharge into drains or the environment. Dispose of at authorized waste collection point.

#### 13.1.3 Packaging/Container

#### **European Union**

Waste material code packaging (Directive 2008/98/EC).

 $15\ 01\ 10^*$  (packaging containing residues of or contaminated by dangerous substances).

#### SECTION 14: Transport information

## SECTION 15: Regulatory information

14.7. Maritime transport in bulk according to IMO instruments

Annex II of MARPOL 73/78

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture European legislation:

VOC content Directive 2010/75/EU

| VOC content | Remark |
|-------------|--------|
| 2 %         |        |
| 29 g/l      |        |

Not applicable, based on available data

#### **REACH Annex XVII - Restriction**

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

|  | Designation of the substance, of the group of substances or of the mixture   | Conditions of restriction  |
|--|--|--|
| 2,2'-dimorpholinyldiethyl ether 4,4'-methylenediphenyl diisocyanate, somers and homologues   | Liquid substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008: (a) hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8 types A and B, 2.9, 2.10, 2.12, 2.13 categories 1 and 2, 2.14 categories 1 and 2, 2.15 types A to F; (b) hazard classes 3.1 to 3.6, 3.7 adverse effects on sexual function and fertility or on development, 3.8 effects other than narcotic effects, 3.9 and 3.10; (c) hazard class 4.1; (d) hazard class 5.1. | 1. Shall not be used in:  — ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays,  — tricks and jokes, — games for one or more participants, or any article intended to be used as such, even wit ornamental aspects, 2. Articles not complying with paragraph 1 shall not be placed on the market. 3. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or perfume, or both, if they: — can be used as fuel in decorative oil lamps for supply to the general public, and, — present an aspiration hazard and are labelled with H304, 4. Decorative oil lamps for supply to the general public shall not be placed on the market unless they conform to the European Standard on Decorative oil lamps (EN 14059) adopte by the European Committee for Standardisation (CEN). 5. Without prejudice to the implementation of other Community provisions relating to the classification, packaging and labelling of dangerous substances and mixtures, suppliers sha ensure, before the placing on the market, that the following requirements are met: a) lamp oils, labelled with H304, intended for supply to the general public are visibly, legibl and indelibly marked as follows: "Keep lamps filled with this liquid out of the reach of children"; and, by 1 December 2010, "Just a sip of lamp oil — or even sucking the wick of lamps — may lead to life- threatening lung damage"; b) grill lighter fluids, labelled with H304, intended for supply to the general public are legib and indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may lead to life threatening lung damage"; c) lamp oils and grill lighters, labelled with H304, intended for supply to the general public are packaged in black opaque containers not exceeding 1 litre by 1 December 2010.  |
| 4,4'-methylenediphenyl diisocyanate o-(p-isocyanatobenzyl)phenyl isocyanate 4,4'-methylenediphenyl diisocyanate, somers and homologues 2,2'-methylenediphenyl diisocyanate | Diisocyanates, O = C=N-R-N = C=O, with R an aliphatic or aromatic hydrocarbon unit of unspecified length   | 1. Shall not be used as substances on their own, as a constituent in other substances or in mixtures for industrial and professional use(s) after 24 August 2023, unless:  (a) the concentration of diisocyanates individually and in combination is less than 0,1 % by weight, or  (b) the employer or self-employed ensures that industrial or professional user(s) have successfully completed training on the safe use of diisocyanates prior to the use of the substance(s) or mixture(s).  2. Shall not be placed on the market as substances on their own, as a constituent in other substances or in mixtures for industrial and professional use(s) after 24 February 2022, unless:  (a) the concentration of diisocyanates individually and in combination is less than 0,1 % by weight, or  (b) the supplier ensures that the recipient of the substance(s) or mixture(s) is provided wit information on the requirements referred to in point (b) of paragraph 1 and the following statement is placed on the packaging, in a manner that is visibly distinct from the rest of the label information: "As from 24 August 2023 adequate training is required before industrial or professional use".  3. For the purpose of this entry "industrial and professional use(s) or supervising these tasks.  4. The training referred to in point (b) of paragraph 1 shall include the instructions for the control of dermal and inhalation exposure to diisocyanates at the workplace without prejudice to any national occupational exposure limit value or other appropriate risk management measures at national level. Such training shall be conducted by an expert on occupational safety and health with competence acquired by relevant vocational training. That training shall cover as a minimum:  (a) the training elements in point (a) of paragraph 5 for all industrial and professional use(s) or the following uses:  — handling open mixtures at ambient temperature (including foam tunnels); |

|   |   | <ul><li>— application by brush;</li><li>— application by dipping and pouring;</li></ul>   |
|   |   | — mechanical post treatment (e.g. cutting) of not fully cured articles which are not warm   |
|   |   | anymore;  |
|   |   | — cleaning and waste;   |
|   |   | — any other uses with similar exposure through the dermal and/or inhalation route;  |
|   |   | (c) the training elements in points (a), (b) and (c) of paragraph 5 for the following uses:  — handling incompletely cured articles (e.g. freshly cured, still warm);   |
|   |   | — foundry applications;   |
|   |   | — maintenance and repair that needs access to equipment;  |
|   |   | — open handling of warm or hot formulations (> 45 °C);  |
|   |   | — spraying in open air, with limited or only natural ventilation (includes large industry working halls) and spraying with high energy (e.g. foams, elastomers);        |
|   |   | — and any other uses with similar exposure through the dermal and/or inhalation route.  |
|   |   | 5. Training elements:   |
|   |   | (a) general training, including on-line training, on:   |
|   |   | — chemistry of diisocyanates;   |
|   |   | toxicity hazards (including acute toxicity);     exposure to diisocyanates;   |
|   |   | — occupational exposure limit values;   |
|   |   | — how sensitisation can develop;  |
|   |   | — odour as indication of hazard;  |
|   |   | — importance of volatility for risk;  |
|   |   | viscosity, temperature, and molecular weight of diisocyanates;      personal hygiene;   |
|   |   | personal protective equipment needed, including practical instructions for its correct use  |
|   |   | and its limitations;  |
|   |   | — risk of dermal contact and inhalation exposure;   |
|   |   | — risk in relation to application process used;   |
|   |   | — skin and inhalation protection scheme;      — ventilation;  |
|   |   | — cleaning, leakages, maintenance;  |
|   |   | — discarding empty packaging;   |
|   |   | — protection of bystanders;   |
|   |   | — identification of critical handling stages;   |
|   |   | <ul> <li>specific national code systems (if applicable);</li> <li>behaviour-based safety;</li> </ul>  |
|   |   | — certification or documented proof that training has been successfully completed   |
|   |   | (b) intermediate level training, including on-line training, on:  |
|   |   | — additional behaviour-based aspects;   |
|   |   | <ul> <li>maintenance;</li> <li>management of change;</li> </ul>   |
|   |   | — evaluation of existing safety instructions;   |
|   |   | — risk in relation to application process used;   |
|   |   | — certification or documented proof that training has been successfully completed   |
|   |   | (c) advanced training, including on-line training, on:  |
|   |   | <ul> <li>— any additional certification needed for the specific uses covered;</li> <li>— spraying outside a spraying booth;</li> </ul>                                  |
|   |   | — open handling of hot or warm formulations (> 45 °C);  |
|   |   | — certification or documented proof that training has been successfully completed   |
|   |   | 6. The training shall comply with the provisions set by the Member State in which the   |
|   |   | industrial or professional user(s) operate. Member States may implement or continue to  |
|   |   | apply their own national requirements for the use of the substance(s) or mixture(s), as long as the minimum requirements set out in paragraphs 4 and 5 are met.         |
|   |   | 7. The supplier referred to in point (b) of paragraph 2 shall ensure that the recipient is  |
|   |   | provided with training material and courses pursuant to paragraphs 4 and 5 in the official  |
|   |   | language(s) of the Member State(s) where the substance(s) or mixture(s) are supplied. The   |
|   |   | training shall take into consideration the specificity of the products supplied, including  |
|   |   | composition, packaging, and design.  8. The employer or self-employed shall document the successful completion of the training  |
|   |   | referred to in paragraphs 4 and 5. The training shall be renewed at least every five years.   |
|   |   | 9. Member States shall include in their reports pursuant to Article 117(1) the following  |
|   |   | information:  |
|   |   | (a) any established training requirements and other risk management measures related to the industrial and professional uses of diisocyanates foreseen in national law; |
|   |   | (b) the number of cases of reported and recognised occupational asthma and occupational   |
|   |   | respiratory and dermal diseases in relation to disocyanates;  |
|   |   | (c) national exposure limits for diisocyanates, if there are any;   |
|   |   | (d) information about enforcement activities related to this restriction.   |
|   |   | 10. This restriction shall apply without prejudice to other Union legislation on the protection of safety and health of workers at the workplace.                       |
|   |   | or sarety and nearth or workers at the workplace.   |

The information in this safety data sheet is based on data and samples provided to BIG. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. BIG does not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is only to be used within the European Union, Switzerland, Iceland, Norway and Liechtenstein. Any use outside of this area is at your own risk. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your BIG licence agreement or when this is failing the general conditions of BIG. All intellectual property rights to this sheet are the property of BIG and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
