Product [SUR RV]

Characteristics

Surface Renewer is a ready-to-use cleaner for renewing UV-weathered coating of aluminum joinery or other painted surfaces and powder coatings.

With a regular treatment with Surface Renewer, the substrate is nourished and a new look is retained.

Applications

- On plastic: mobile homes, caravans, trailers, pleasure boats, sports aircraft, ...
- Suitable for all lacquered (not varnished) or powder coated materials: windows and doors, roller shutters, garage doors, verandas, skylights, terraces, carports, balustrades, ...

Use

- Preventive: Apply to healthy, clean and dry surfaces with a soft, clean and dry sponge. Wipe with a clean, soft cloth.
 - Curative: thoroughly clean dirty, weathered surfaces with Novakleen and dry before treatment with Surface Renewer.
- Dosage: only use pure.
