Packing

Bio-Paste Windows and Doors - pot 600gr 477001112

Product [BPA R&D]

Characteristics

- For all metals, plastics and hard materials.
- Safe, biodegradable and water-repellent.
- Also removes soot on glass from stoves, fireplaces, petroleum fires, etc.

Use

- Rub in with a clean damp cloth or soft sponge to create a foam.
- Rinse with clean water.
- Polish with a dry cloth. Not suitable for painted or varnished surfaces. If in doubt, first test in a place that is barely visible, if at all.
