Packing

Poxy Quartz - 0,2-2,0mm - bucket 20kg 637319000

Product [PQZ]

Characteristics

Use

Liquid-tight Poxycon mortar

First apply Poxycon as a primer. Then add Poxy Quartz to the well-mixed Poxycon in the designated bucket. Mixing ratio by weight: 1 part Poxycon and 5 parts Poxy Quartz. Process immediately. Consumption per mm layer thickness on 1 m²: approx. 0.4 kg Poxycon and 2.0 kg Poxy Quartz.

Open-pored Poxycon mortar

First apply Poxycon as a primer. Then add Poxy Quartz to the well-mixed Poxycon in the designated bucket. Mixing ratio by weight: 1 part Poxycon and 10 parts Poxy Quartz. Process immediately. Consumption per mm layer thickness on 1 m²: approx. 0.2 kg Poxycon and 2.0 kg Poxy Quartz.
